

## Product Datasheet

### GN9993 -

### S-(5''-Adenosyl)-L-homocysteine

#### Product Details

|                           |                                 |
|---------------------------|---------------------------------|
| Product Name              | S-(5''-Adenosyl)-L-homocysteine |
| Glentham Code             | GN9993                          |
| CAS Number                | 979-92-0                        |
| EINECS                    | 213-560-8                       |
| MDL Number                | MFCD00037388                    |
| Bellstein Registry Number | 99188                           |
| PubChem SID               | 310265887                       |
| Related Categories        | Nucleosides & Nucleotides       |

#### Glentham Product Specification

|                      |                                |
|----------------------|--------------------------------|
| Physical Description | : White to almost white powder |
| Assay (HPLC)         | : $\geq 98.0\%$                |
| Version              | : v1.0                         |

#### About S-(5''-Adenosyl)-L-homocysteine

No further details on record.

#### Structure

Molecular Weight : 384.41  
Molecular Formula :  $C_{14}H_{20}N_6O_5S$

#### Storage

Recommended storage temperature: -20°C.

#### Hazards and Transport

Not classified as hazardous under CLP.  
Not classified as dangerous for transport.
