

## Certificate of Analysis

|               |                             |
|---------------|-----------------------------|
| Product Name  | Tetraethylthiuram disulfide |
| Glentham Code | GL1148                      |
| CAS Number    | 97-77-8                     |
| EINECS        | 202-607-8                   |
| MDL Number    | MFCD00009048                |
| PubChem SID   | 310280728                   |
| Batch Number  | 062PVT                      |

|                   |                                                               |
|-------------------|---------------------------------------------------------------|
| Molecular Weight  | 296.54                                                        |
| Molecular Formula | C <sub>10</sub> H <sub>20</sub> N <sub>2</sub> S <sub>4</sub> |
| Storage Temp.     |                                                               |

| Property              | Specification                                        | Batch 062PVT         |
|-----------------------|------------------------------------------------------|----------------------|
| Physical Description  | White to yellow, orange or green, powder or crystals | Pale yellow crystals |
| Identification (IR)   | To conform to standard                               | Conforms             |
| Melting Point         | 65.0 - 74.0 °C                                       | 70.7°C               |
| Assay (Titration)     | ≥ 97.0%                                              | 99.5%                |
| Specification Version | v1.0                                                 |                      |
| Manufacture Date      | 2023-01-26                                           |                      |
| Re-Test Date          | 2029-12-22                                           |                      |

Glentham Life Sciences confirm that the above referenced product conformed to the information displayed in this document on the quality release date. Please check [www.glentham.com](http://www.glentham.com) or contact us using the details above for the current version of this document.
