

## Product Datasheet

### GA3636 - Pazufloxacin

#### Product Details

|                    |                                                 |
|--------------------|-------------------------------------------------|
| Product Name       | Pazufloxacin                                    |
| Glentham Code      | GA3636                                          |
| CAS Number         | 127045-41-4                                     |
| PubChem SID        | 310278525                                       |
| Related Categories | APIs, Antibiotics, Biochemicals, Antimicrobials |

#### Glentham Product Specification

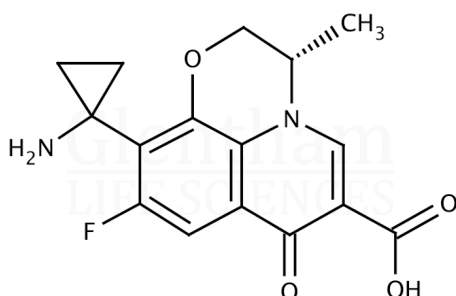

|                      |                                                     |
|----------------------|-----------------------------------------------------|
| Physical Description | : White to light yellow or beige crystalline powder |
| Assay                | : $\geq 98.0\%$                                     |
| Version              | : v1.0                                              |

#### About Pazufloxacin

No further details on record.

#### Structure

|                   |                         |
|-------------------|-------------------------|
| Molecular Weight  | : 318.30                |
| Molecular Formula | : $C_{16}H_{15}FN_2O_4$ |

#### Storage

Recommended storage temperature: +4°C.

#### Hazards and Transport

Not classified as dangerous for transport.

|                     |                                                |
|---------------------|------------------------------------------------|
| CLP Classification  | Skin Irr. 2, STOT SE 3, STOT SE 3, Eye Irr. 2A |
| Signal Word         | Achtung                                        |
| Hazard Codes        | H315, H336, H335, H319                         |
| Precautionary Codes | P305+P351+P338, P261                           |
| Pictograms          |                                                |
