## **Product Specification**

| Product Name      | Agar, high gel strength, suitable for microbiology |
|-------------------|--|
| Glentham Code     | GC4369   |
| CAS Number        | 9002-18-0  |
| EINECS            | 232-658-1  |
| MDL-Nummer        | MFCD00081288                                       |
| Molecular Weight  | -  |
| Molecular Formula | (C <sub>12</sub> H <sub>18</sub> O <sub>9</sub> )n |
| Storage Temp.     | +20°C  |

| Property                    | Specification                             |
|-----------------------------|---|
| Physical Description        | Off-white to cream or light-brown powder  |
| pH (10% in water)           | 6.2 - 7.2                                 |
| Ash                         | ≤ 4%                                      |
| Acid Insoluble Matter       | ≤ 0.5%                                    |
| Insoluble Matter            | ≤ 1.0%                                    |
| Water                       | ≤ 12.0%                                   |
| Starch                      | Absent                                    |
| Gelatine and Other Proteins | Absent                                    |
| Lead (Pb)                   | ≤ 0.5ppm                                  |
| Mercury (Hg)                | ≤ 0.5ppm                                  |
| Arsenic (As)                | ≤ 0.5ppm                                  |
| Cadmium (Cd)                | ≤ 0.5ppm                                  |
| Viscosity                   | 8 - 15 cps (1.5%, 120°C, coooled to 60°C) |
| Gel Strength                | ≥ 900g/cm <sup>2</sup>                    |
| Gelling Temperature         | 35 - 36 °C                                |
|                             |   |

| Specification Version | - | v1.0       |
|-----------------------|---|------------|
| Date Created          | - | 2020-03-17 |

Glentham Life Sciences confirm that the above referenced product conformed to the information displayed in this document on the quality release date. Please check www.glentham.com or contact us using the details above for the current version of this document.
