

## Product Datasheet

### GE0021 - Sodium hydroxide, micropearls

#### Product Details

|                    |                                                                                                                                                                                                                                                         |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Name       | Sodium hydroxide, micropearls                                                                                                                                                                                                                           |
| Glenthams Code     | GE0021                                                                                                                                                                                                                                                  |
| CAS Number         | 1310-73-2                                                                                                                                                                                                                                               |
| EINECS             | 215-185-5                                                                                                                                                                                                                                               |
| MDL-Nummer         | MFCD00003548                                                                                                                                                                                                                                            |
| PubChem SID        | 310280119                                                                                                                                                                                                                                               |
| Related Categories | Raw Materials (IVD), PCR, Reagents for Gel Electrophoresis of DNA/RNA, Reagents for Gel Electrophoresis of Proteins, Reagents for Cell Culture, Reagents for Northern and Southern Blotting, Reagents for Western Blotting, Inorganics, Inorganic Bases |

#### Structure

|                   |         |
|-------------------|---------|
| Molecular Weight  | : 40.00 |
| Molecular Formula | : NaOH  |

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

|                            |                                                                                     |
|----------------------------|-------------------------------------------------------------------------------------|
| CLP Classification         | Skin Corr. 1A, Met. Corr. 1                                                         |
| Signal Word                | Gefahr                                                                              |
| Hazard Codes               | H314, H290                                                                          |
| Precautionary Codes        | P305+P351+P338, P280, P310                                                          |
| Pictograms                 |  |
| UN Number, Class, PG (RID) | UN1823 - 8 - PG II                                                                  |

#### Glenthams Product Specification

|                      |                                            |
|----------------------|--------------------------------------------|
| Physical Description | : White, fine beads                        |
| Solubility           | : 10% in water: Clear, colourless solution |
| Purity               | : ≥ 99%                                    |
| Version              | : v1.0                                     |

#### About Sodium hydroxide, micropearls
