

## Product Specification

|                   |                                |
|-------------------|--------------------------------|
| Product Name      | 5-(Hydroxymethyl)furfural, 96% |
| Glentham Code     | GK0102                         |
| CAS Number        | 67-47-0                        |
| EINECS            | 200-654-9                      |
| MDL-Nummer        | MFCD00003234                   |
| Molecular Weight  | 126.11                         |
| Molecular Formula | $C_6H_6O_3$                    |
| Storage Temp.     | +4°C                           |

| Property              | Specification                                                  |
|-----------------------|----------------------------------------------------------------|
| Physical Description  | Pale beige to beige or yellow to pale brown powder or crystals |
| Purity (GC)           | ≥ 96.0%                                                        |
| Specification Version | - v1.0                                                         |
| Date Created          | - 2021-07-15                                                   |

Glentham Life Sciences confirm that the above referenced product conformed to the information displayed in this document on the quality release date. Please check [www.glentham.com](http://www.glentham.com) or contact us using the details above for the current version of this document.
