

## Product Specification

|               |                                                       |
|---------------|-------------------------------------------------------|
| Product Name  | 3,4-Dimethoxyphenylacetic acid<br>(Homoveratric acid) |
| Glentham Code | GK1160                                                |
| CAS Number    | 93-40-3                                               |
| EINECS        | 202-244-5                                             |
| MDL-Nummer    | MFCD00004335                                          |
| PubChem SID   | 310271959                                             |

|                   |                                                |
|-------------------|------------------------------------------------|
| Molecular Weight  | 196.20                                         |
| Molecular Formula | C <sub>10</sub> H <sub>12</sub> O <sub>4</sub> |
| Storage Temp.     |                                                |

| Property                   | Specification                        |
|----------------------------|--------------------------------------|
| Physical Description       | White to beige powder                |
| Identification (IR)        | To conform to standard               |
| Solubility (5% in ethanol) | Clear, colourless to yeloow solution |
| Melting Point              | 96.0 - 101.0 °C                      |
| Purity (HPLC)              | ≥ 98.0%                              |

|                       |              |
|-----------------------|--------------|
| Specification Version | - v1.0       |
| Date Created          | - 2022-12-15 |

Glentham Life Sciences confirm that the above referenced product conformed to the information displayed in this document on the quality release date. Please check [www.glentham.com](http://www.glentham.com) or contact us using the details above for the current version of this document.
