

## Product Datasheet

### GK5509 - Tetrakis(triphenylphosphine)palladium(0)

#### Product Details

|                    |                                                   |
|--------------------|---------------------------------------------------|
| Product Name       | Tetrakis(triphenylphosphine)palladium(0)          |
| Glenthams Code     | GK5509                                            |
| CAS Number         | 14221-01-3                                        |
| EINECS             | 238-086-9                                         |
| MDL-Nummer         | MFCD00010012                                      |
| PubChem SID        | 310280788                                         |
| Related Categories | Inorganics, Precious Metal Salts, Organometallics |

#### Glenthams Product Specification

|                      |                           |
|----------------------|---------------------------|
| Physical Description | : Yellow to orange powder |
| Assay                | : $\geq 99.0\%$           |
| Palladium (Pd)       | : $\geq 9.2\%$            |
| Version              | : v1.0                    |

#### About

#### Tetrakis(triphenylphosphine)palladium(0)

No further details on record.

#### Structure

Molecular Weight : 1155.57  
Molecular Formula :  $\text{Pd}[\text{P}(\text{C}_6\text{H}_5)_3]_4$

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as hazardous under CLP.  
Not classified as dangerous for transport.
