

## Product Datasheet

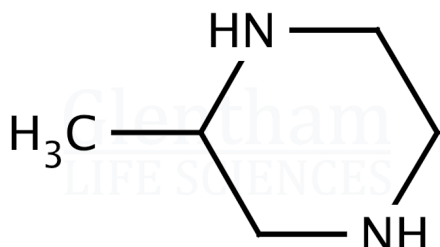

### GK7695 - 2-Methylpiperazine

#### Product Details

|               |                    |
|---------------|--------------------|
| Product Name  | 2-Methylpiperazine |
| Glentham Code | GK7695             |
| CAS Number    | 109-07-9           |
| EINECS        | 203-644-2          |
| MDL-Nummer    | MFCD00005954       |
| PubChem SID   | 310277002          |

#### Structure

|                   |                                                 |
|-------------------|-------------------------------------------------|
| Molecular Weight  | : 100.17                                        |
| Molecular Formula | : C <sub>5</sub> H <sub>12</sub> N <sub>2</sub> |

#### Storage

Recommended storage temperature: .

#### Hazards and Transport

|                     |                                                                    |
|---------------------|--------------------------------------------------------------------|
| CLP Classification  | STOT SE 3, Skin Irr. 2,<br>Eye Irr. 2A, STOT SE 3,<br>Flam. Sol. 1 |
| Signal Word         | Gefahr                                                             |
| Hazard Codes        | H336, H315, H319, H335,<br>H228                                    |
| Precautionary Codes | P305+P351+P338, P261,<br>P210                                      |

#### Pictograms

UN Number, Class, PG  
(RID)

UN1325 - 4.1 - PG II

#### Glentham Product Specification

|                      |                                                  |
|----------------------|--------------------------------------------------|
| Physical Description | : White to yellow crystalline powder or crystals |
| Melting Point        | : 61 - 66 °C                                     |
| Assay (GC)           | : ≥ 98.0%                                        |
| Version              | : v1.0                                           |

#### About 2-Methylpiperazine
