### GK7766 - N-(alpha,alpha,alpha-Trifluoro-m-tolyl)piperazine

Pictograms

#### Product Details

|                |                                                   |
|----------------|---------------------------------------------------|
| Product Name   | N-(alpha,alpha,alpha-Trifluoro-m-tolyl)piperazine |
| Glenthams Code | GK7766                                            |
| CAS Number     | 15532-75-9                                        |
| EINECS         | 239-574-4                                         |
| MDL-Nummer     | MFCD00005959                                      |
| PubChem SID    | 310266073                                         |

#### Glenthams Product Specification

|                      |                               |
|----------------------|-------------------------------|
| Physical Description | : Colourless to yellow liquid |
| Purity               | : ≥ 98.0%                     |
| Version              | : v1.0                        |

#### Structure

|                   |                                                                 |
|-------------------|-----------------------------------------------------------------|
| Molecular Weight  | : 230.23                                                        |
| Molecular Formula | : C <sub>11</sub> H <sub>13</sub> F <sub>3</sub> N <sub>2</sub> |
