

## Product Datasheet

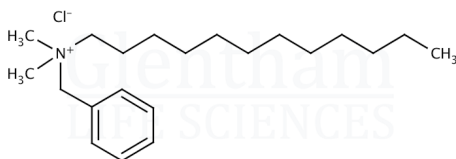

### GK9286 - Benzyldimethyldodecylammonium chloride

#### Product Details

|                    |                                        |
|--------------------|----------------------------------------|
| Product Name       | Benzyldimethyldodecylammonium chloride |
| Glentham Code      | GK9286                                 |
| CAS Number         | 139-07-1                               |
| EINECS             | 205-351-5                              |
| MDL-Nummer         | MFCD00137276                           |
| PubChem SID        | 310267571                              |
| Related Categories | Detergents                             |

#### Structure

|                   |                                       |
|-------------------|---------------------------------------|
| Molecular Weight  | : 339.99                              |
| Molecular Formula | : C <sub>21</sub> H <sub>38</sub> ClN |

|                     |                                                                        |
|---------------------|------------------------------------------------------------------------|
| Hazard Codes        | H312, H302, H400, H314                                                 |
| Precautionary Codes | P280, P303+P361+P353, P304+P340, P305+P351+P338, P310, P260, P301+P312 |

#### Pictograms

|                            |                    |
|----------------------------|--------------------|
| UN Number, Class, PG (RID) | UN3261 - 8 - PG II |
|----------------------------|--------------------|

#### Glentham Product Specification

|                      |                                         |
|----------------------|-----------------------------------------|
| Physical Description | : White to off-white powder or crystals |
| Identification (IR)  | : To conform to standard                |
| Water (KF)           | : ≤ 12.0%                               |
| Assay (Titration)    | : ≥ 98.0% (dried basis)                 |
| Version              | : v1.0                                  |

#### About Benzyldimethyldodecylammonium chloride

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

|                    |                                                            |
|--------------------|------------------------------------------------------------|
| CLP Classification | Acute Tox. 4, Acute Tox. 4, Aquatic Acute 1, Skin Corr. 1B |
| Signal Word        | Gefahr                                                     |
