

## Product Datasheet

### GK9409 - O-Ethylhydroxylamine hydrochloride

Pictograms

#### Product Details

|               |                                    |
|---------------|------------------------------------|
| Product Name  | O-Ethylhydroxylamine hydrochloride |
| Glentham Code | GK9409                             |
| CAS Number    | 3332-29-4                          |
| PubChem SID   | 310272862                          |

#### Glentham Product Specification

|                      |                                                         |
|----------------------|---------------------------------------------------------|
| Physical Description | : White to off-white or light yellow crystalline powder |
| Melting Point        | : 131 - 135 °C                                          |
| Assay                | : ≥ 97.0%                                               |
| Version              | : v1.0                                                  |

#### Structure

Molecular Weight : 97.54  
Molecular Formula :  $C_2H_7NO \cdot HCl$

#### About O-Ethylhydroxylamine hydrochloride

No further details on record.

#### Storage

Recommended storage temperature: .

#### Hazards and Transport

Not classified as dangerous for transport.

|                     |                                                |
|---------------------|------------------------------------------------|
| CLP Classification  | Skin Irr. 2, STOT SE 3, STOT SE 3, Eye Irr. 2A |
| Signal Word         | Achtung                                        |
| Hazard Codes        | H315, H336, H335, H319                         |
| Precautionary Codes | P305+P351+P338, P280, P302+P352                |
