

## Product Datasheet

### GL7386 - Hexaethylene glycol monododecyl ether

#### Product Details

|                    |                                       |
|--------------------|---------------------------------------|
| Product Name       | Hexaethylene glycol monododecyl ether |
| Glenthams Code     | GL7386                                |
| CAS Number         | 3055-96-7                             |
| EINECS             | 221-282-3                             |
| MDL-Nummer         | MFCD00042660                          |
| PubChem SID        | 310274565                             |
| Related Categories | Detergents                            |

#### Structure

|                   |                                                                       |
|-------------------|-----------------------------------------------------------------------|
| Molecular Weight  | : 450.65                                                              |
| Molecular Formula | : $\text{CH}_3(\text{CH}_2)_{11}(\text{OCH}_2\text{CH}_2)_6\text{OH}$ |

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

|                    |                                           |
|--------------------|-------------------------------------------|
| CLP Classification | Aquatic Acute 1, Acute Tox. 4, Eye Dam. 1 |
| Signal Word        | Gefahr                                    |
| Hazard Codes       | H400, H302, H318                          |

#### Precautionary Codes

P305+P351+P338, P273, P280

#### Pictograms

#### UN Number, Class, PG (RID)

UN3077 - 9 - PG III

#### Glenthams Product Specification

|                      |                 |
|----------------------|-----------------|
| Physical Description | : White solid   |
| Purity               | : $\geq 98.0\%$ |
| Version              | : v1.0          |

#### About Hexaethylene glycol monododecyl ether
