

## Product Datasheet

### GP9877 - Gemcitabine

#### Product Details

|                    |                                                                 |
|--------------------|-----------------------------------------------------------------|
| Product Name       | Gemcitabine                                                     |
| Glentham Code      | GP9877                                                          |
| CAS Number         | 95058-81-4                                                      |
| PubChem SID        | 310274072                                                       |
| MDL-Nummer         | MFCD00869720                                                    |
| Zusätzliche CAS    | 122111-03-9 (-HCl)                                              |
| Related Categories | APIs, Biochemicals,<br>Nucleosides & Nucleotides,<br>Cytotoxins |

#### Precautionary Codes

P280, P302+P352,  
P305+P351+P338,  
P308+P313, P362

#### Glentham Product Specification

|                      |                                         |
|----------------------|-----------------------------------------|
| Physical Description | : White or off-white crystalline powder |
| Loss on Drying       | : ≤ 3.0%                                |
| Assay                | : ≥ 98.0% (dried basis)                 |
| Version              | : v1.1                                  |

#### Structure

|                   |                                                                               |
|-------------------|-------------------------------------------------------------------------------|
| Molecular Weight  | : 263.20                                                                      |
| Molecular Formula | : C <sub>9</sub> H <sub>11</sub> F <sub>2</sub> N <sub>3</sub> O <sub>4</sub> |

#### About Gemcitabine

No further details on record.

#### Storage

Recommended storage temperature: -20°C.

#### Hazards and Transport

|                                            |                                                 |
|--------------------------------------------|-------------------------------------------------|
| Not classified as dangerous for transport. |                                                 |
| CLP Classification                         | Skin Irr. 2, STOT RE 2,<br>Repr. 2, Eye Irr. 2A |
| Signal Word                                | Achtung                                         |
| Hazard Codes                               | H315, H373, H361, H319                          |
