

## Product Datasheet

### GS1826 - N-Methyl-2-pyrrolidone, GlenDry™, anhydrous

Precautionary Codes

P280, P261,  
P305+P351+P338

Pictograms

#### Product Details

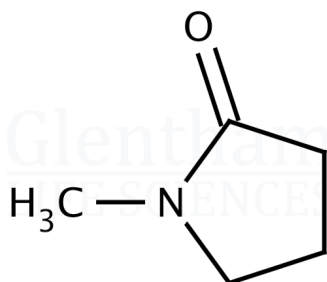

|                    |                                                |
|--------------------|------------------------------------------------|
| Product Name       | N-Methyl-2-pyrrolidone,<br>GlenDry™, anhydrous |
| Glentham Code      | GS1826                                         |
| CAS Number         | 872-50-4                                       |
| EINECS             | 212-828-1                                      |
| Related Categories | Solvents                                       |

#### Glentham Product Specification

|                      |                            |
|----------------------|----------------------------|
| Physical Description | : Clear, colourless liquid |
| Water                | : ≤ 0.0075%                |
| Assay                | : ≥ 99.5%                  |
| Version              | : v1.0                     |

#### Structure

|                   |                                    |
|-------------------|------------------------------------|
| Molecular Weight  | : 99.13                            |
| Molecular Formula | : C <sub>5</sub> H <sub>9</sub> NO |

#### About N-Methyl-2-pyrrolidone, GlenDry™, anhydrous

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as dangerous for transport.

CLP Classification      Repr. 1B, Skin Irr. 2, Eye  
Irr. 2A, STOT SE 3, STOT  
SE 3

Signal Word              Gefahr

Hazard Codes            H360, H315, H319, H335,  
H336
