

## Product Datasheet

### GT1388 - 2,4-Dichlorobenzenediazonium 1,5-naphthalenedisulfonate hydrate

#### Product Details

|                    |                                                                       |
|--------------------|-----------------------------------------------------------------------|
| Product Name       | 2,4-Dichlorobenzenediazonium<br>1,5-naphthalenedisulfonate<br>hydrate |
| Glenthams Code     | GT1388                                                                |
| CAS Number         | 123333-91-5                                                           |
| MDL-Nummer         | MFCD08457580                                                          |
| PubChem SID        | 310271454                                                             |
| Related Categories | Dyes & Stains                                                         |

#### Structure

|                   |                                           |
|-------------------|-------------------------------------------|
| Molecular Weight  | : 461.30 (anhydrous)                      |
| Molecular Formula | : $C_{16}H_{10}Cl_2N_2O_6S_2 \cdot xH_2O$ |

#### Storage

Recommended storage temperature: +4°C.

#### Hazards and Transport

|                    |               |
|--------------------|---------------|
| CLP Classification | Skin Corr. 1B |
| Signal Word        | Gefahr        |
| Hazard Codes       | H314          |

Precautionary Codes

P305+P351+P338, P280,  
P310

Pictograms

UN Number, Class, PG  
(RID)

UN3261 - 8 - PG II

#### Glenthams Product Specification

|                      |                          |
|----------------------|--------------------------|
| Physical Description | : Yellow to tan powder   |
| Identification (IR)  | : To conform to standard |
| Water (KF)           | : $\leq 10.0\%$          |
| Assay                | : $\geq 95.0\%$          |
| Version              | : v1.0                   |
