

## Product Datasheet

### GX0196 - Aluminium potassium sulfate dodecahydrate, 99%

#### Product Details

|                    |                                                |
|--------------------|------------------------------------------------|
| Product Name       | Aluminium potassium sulfate dodecahydrate, 99% |
| Glenthams Code     | GX0196                                         |
| CAS Number         | 7784-24-9                                      |
| EINECS             | 233-141-3                                      |
| MDL-Nummer         | MFCD00149143                                   |
| Zusätzliche CAS    | 10043-67-1 (anhydr.)                           |
| Related Categories | Inorganics, Metal Salts                        |

|                          |                                                                            |
|--------------------------|----------------------------------------------------------------------------|
| Physical Description     | : White crystalline powder or colourless crystals                          |
| Solubility (5% in water) | : Clear, colourless solution                                               |
| pH (10% in water)        | : 3.0 - 4.0                                                                |
| Assay                    | : 99.0 - 101.0 % (AlK(SO <sub>4</sub> ) <sub>2</sub> · 12H <sub>2</sub> O) |
| Version                  | : v1.0                                                                     |

#### About Aluminium potassium sulfate dodecahydrate, 99%

No further details on record.

#### Structure

|                   |                                                           |
|-------------------|-----------------------------------------------------------|
| Molecular Weight  | : 474.40                                                  |
| Molecular Formula | : AlK(SO <sub>4</sub> ) <sub>2</sub> · 12H <sub>2</sub> O |

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as hazardous under CLP.  
Not classified as dangerous for transport.
