

## Product Datasheet

### GX0810 - Silver iodide, 99+%

#### Product Details

|                    |                                                  |
|--------------------|--------------------------------------------------|
| Product Name       | Silver iodide, 99+%                              |
| Glentham Code      | GX0810                                           |
| CAS Number         | 7783-96-2                                        |
| EINECS             | 232-038-0                                        |
| Related Categories | Inorganics, Metal Salts,<br>Precious Metal Salts |

#### Structure

|                   |          |
|-------------------|----------|
| Molecular Weight  | : 234.77 |
| Molecular Formula | : AgI    |

#### Glentham Product Specification

|                      |                                             |
|----------------------|---------------------------------------------|
| Physical Description | : Yellow to yellow-green powder or crystals |
| Assay                | : ≥ 99.0%                                   |
| Version              | : v1.0                                      |

#### About Silver iodide, 99+%

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as dangerous for transport.

CLP Classification Aquatic Chronic 1, Aquatic  
Acute 1

Signal Word Achtung

Hazard Codes H410, H400

Precautionary Codes P273
