| Cefalexin monohydrate, USP grade |   | CAS: 23325-78-2<br>EC:<br>REACH: Not<br>applicable | 950µg/mg          | H317, Skin Sens. 1<br>H334, Resp. Sens. 1                                  |
| irst aid measure                 | S   |  |                   |  |
| Description of fire              | at aid measures   |  |                   |  |
| Skin contact                     |   |  | 0                 | or 10 minutes or longer if substance is<br>mediately unless stuck to skin. |
| Eye contact                      | Consult a doctor. Bathe the eye with running water for 15 minutes.  |  |                   |  |
| Ingestion                        | Consult a doctor. Do not induce vomiting. If conscious, give half a litre of water to drink immediately. Wash out mouth with water. |  |                   |  |
| Inhalation                       | Consult a doctor. Re  | emove casualty from exposu                         | re ensuring on    | e's own safety whilst doing so.  |
| Most important sy                | mptoms and effects, both  | acute and delayed                                  |                   |  |
| Skin contact                     | There may be irritat  | ion and redness at the site o                      | f contact.        |  |
| Eye contact                      | The eyes may wate   | r profusely. There may be irr                      | itation and red   | ness.  |
| Ingestion                        | Nausea and stomac<br>There may be vomit   | , ,  | ly be soreness    | and redness of the mouth and throat.                                       |
| Inhalation                       | Nausea and stomac   | h pain may occur. There ma                         | y be irritation c | of the throat with a feeling of tightness                                  |

Immediate effects can be expected after short-term exposure. Nausea and stomach pain may occur.

in the chest. There may be vomiting.

4.3 Indication of any immediate medical attention and special treatment needed

Immediate / special treatment

Delayed / immediate effects

Do not induce vomiting.

#### 5. Fire-fighting measures

#### 5.1 Extinguishing media

Suitable extinguishing media for the surrounding fire should be used. Use water spray to cool containers.

#### Special hazards arising from the substance or mixture

#### Exposure hazards

In combustion emits toxic fumes.

#### 5.3 Advice for fire-fighters

Wear protective clothing to prevent contact with skin and eyes. Wear self-contained breathing apparatus.

#### 6. Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

#### Personal precautions

If outside do not approach from downwind. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Refer to section 8 of SDS for personal protection details.

#### 6.2 Environmental precautions

Do not discharge into drains or rivers.

6.3 Methods and material for containment and cleaning up

Clean-up procedures

Transfer to a closable, labelled salvage container for disposal by an appropriate method.

Safety Data Sheet

www.glentham.com

| 6.4 Referen | ce to other sections |
|-------------|----------------------|
|-------------|----------------------|

Refer to section 8 of SDS.

#### 7. Handling and storage

#### 7.1 Precautions for safe handling

#### Handling requirements

Avoid direct contact with the substance. Avoid the formation or spread of dust in the air. Do not handle in a confined space. Ensure there is sufficient ventilation of the area.

#### 7.2 Conditions for safe storage, including any incompatibilities

Storage conditions

Avoid contact with water or humidity. Keep container tightly closed. Store in cool, well ventilated area.

#### 7.3 Specific end use(s)

No data available.

#### 8. Exposure controls/personal protection

#### 8.1 Control parameters

Workplace exposure limits

No workplace exposure limit control parameters set

#### 8.2 Exposure controls

| •                      |   |
|------------------------|---|
| Engineering measures   | Ensure there is sufficient ventilation of the area.   |
| Respiratory protection | Respiratory protective device with particle filter. Self- contained breathing apparatus must be available in case of emergency. |
| Hand protection        | Protective gloves.  |
| Eye protection         | Ensure eye bath is to hand. Safety glasses.   |
| Skin protection        | Protective clothing.  |

#### 9. Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

| Physical state                                    | Solid              |
|---|--------------------|
| Colour  | White              |
| Odour   | No data available. |
| Melting point/Freezing point                      | No data available. |
| Boiling point/initial boiling point/boiling range | No data available. |
| Flammability                                      | No data available. |
| Lower/Upper explosion limit                       | No data available. |
| Flash Point                                       | No data available. |
| Auto-ignition temperature                         | No data available. |
| Decomposition temperature                         | No data available. |
| рН  | No data available. |
| Kinematic viscosity                               | No data available. |
| Solubility  | No data available. |
| Partition coefficient n-octanol/water             | No data available. |
| Vapour pressure                                   | No data available. |
| Density/relative density                          | No data available. |
| Relative vapour pressure                          | No data available. |
| Particle characteristics                          | No data available. |
| 41  |                    |

#### 9.2 Other information

No data available.

#### 10. Stability and reactivity

#### 10.1 Reactivity

Stable under recommended transport or storage conditions.
