

According to REACH Regulations (EC) 1907/2006 and (EU) 2020/878

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Product code : GE0418  
 Product name : Acrylamide/Bis-acrylamide, 19:1, 40% solution  
 CAS number :  
 Physical form : liquid, mixture  
 REACH : A registration number is not available for this substance as the substance or its uses are exempted from registration, the annual tonnage does not require a registration or the registration is envisaged for a later registration deadline.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

PC21: Laboratory chemicals.

### 1.3 Details of the supplier of the safety data sheet

|              |                              |           |                        |
|--------------|------------------------------|-----------|------------------------|
| Company name | : Glentham Life Sciences Ltd | Telephone | : +44 (0) 1225 667 798 |
|              | Unit 5 Leafield Way          | Fax       | : +44 (0) 2033 978 909 |
|              | Corsham SN13 9SW             | Email     | : info@glentham.com    |
|              | United Kingdom               | Web       | : www.glentham.com     |

### 1.4 Emergency telephone number

Emergency telephone : NHS Direct 111 (UK, 24 hours), 112 (EU, 24 Hours), +44 (0) 1225 667 798 (09.00 – 17.00 GMT) number

## 2. Hazards identification

### 2.1 Classification of the substance or mixture

Classification under CLP according to (EC) 1272/2008

|      |              |
|------|--------------|
| H301 | Acute Tox. 3 |
| H315 | Skin Irr. 2  |
| H317 | Skin Sens. 1 |
| H319 | Eye Irr. 2A  |
| H340 | Muta. 1A     |
| H350 | Carc. 1B     |
| H361 | Repr. 2      |
| H372 | STOT RE 1    |

### 2.2 Label elements

Label elements under CLP according to (EC) 1272/2008

#### Pictograms

GHS06 GHS08

#### Signal words

Danger

#### Hazard statements

|      |  |
|------|--|
| H301 | Toxic if swallowed   |
| H315 | Causes skin irritation   |
| H317 | May cause an allergic skin reaction                            |
| H319 | Causes serious eye irritation                                  |
| H340 | May cause genetic defects                                      |
| H350 | May cause cancer   |
| H361 | Suspected of damaging fertility or the unborn child            |
| H372 | Causes damage to organs through prolonged or repeated exposure |

#### Precautionary statements

|           |   |
|-----------|---|
| P202      | Do not handle until all safety precautions have been read and understood. |
| P260      | Do not breathe dust/fume/gas/mist/vapors/spray.                           |
| P301+P310 | IF SWALLOWED: Immediately call a POISON CENTER/doctor/...                 |

P305+P351+P338

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing.

P308+P313

IF exposed or concerned: Get medical advice/attention.

P332+P313

IF SKIN irritation occurs: Get medical advice/attention.

P264

Do not breathe fume.

P261

Avoid breathing vapors.

## 2.3 Other hazards

PBT

This substance is not identified as a PBT substance.

## 3.0 Composition/information on ingredients

### 3.2 Mixtures

| Name                          | Identifier  | %  | Classification  |
|-------------------------------|---|----|---|
| Acrylamine                    | CAS: 79-06-1<br>EC: 201-173-7<br>REACH: Not applicable  | 38 | H301, Acute Tox. 3<br>H312, Acute Tox. 4<br>H315, Skin Irr. 2<br>H317, Skin Sens. 1<br>H319, Eye Irr. 2A<br>H332, Acute Tox. 4<br>H340, Muta. 1B<br>H350, Carc. 1B<br>H361, Repr. 2<br>H370, STOT SE 1<br>H400, Aquatic Acute 1 |
| N-N"-methylene-bis-acrylamide | CAS: 110-26-9<br>EC: 203-750-9<br>REACH: Not applicable | 2  | H302, Acute Tox. 4<br>H332, Acute Tox. 4  |

## 4. First aid measures

### 4.1 Description of first aid measures

|              |  |
|--------------|--|
| Skin contact | Consult a doctor. Drench the affected skin with running water for 10 minutes or longer if substance is still on skin. Remove all contaminated clothes and footwear immediately unless stuck to skin. Transfer to hospital if there are burns or symptoms of poisoning. Wash immediately with plenty of soap and water.   |
| Eye contact  | Consult a doctor. Transfer to hospital for specialist examination. Bathe the eye with running water for 15 minutes.  |
| Ingestion    | Consult a doctor. Do not induce vomiting. If conscious, give half a litre of water to drink immediately. If unconscious and breathing is OK, place in the recovery position. If unconscious, check for breathing and apply artificial respiration if necessary. Transfer to hospital as soon as possible. Wash out mouth with water.   |
| Inhalation   | If breathing becomes bubbly, have the casualty sit and provide oxygen if available. If conscious, ensure the casualty sits or lies down. If unconscious and breathing is OK, place in the recovery position. If unconscious, check for breathing and apply artificial respiration if necessary. Remove casualty from exposure ensuring one's own safety whilst doing so. Transfer to hospital as soon as possible. Consult a doctor. |

### 4.2 Most important symptoms and effects, both acute and delayed

|              |   |
|--------------|---|
| Skin contact | Absorption through the skin may be fatal. Irritation or pain may occur at the site of contact. There may be irritation and redness at the site of contact. There may be redness or whiteness of the skin in the area of exposure. |
| Eye contact  | The eyes may water profusely. There may be irritation and redness. There may be severe pain.  |
| Ingestion    | Convulsions may occur. Nausea and stomach pain may occur. There may be loss of consciousness. There may be soreness and redness of the mouth and throat. There may be vomiting.   |

|                             |   |
|-----------------------------|---|
| Inhalation                  | Absorption through the lungs can occur causing symptoms similar to those of ingestion. Convulsions may occur. Exposure may cause coughing or wheezing. Nausea and stomach pain may occur. There may be irritation of the throat with a feeling of tightness in the chest. There may be loss of consciousness. There may be shortness of breath with a burning sensation in the throat. There may be vomiting. |
| Delayed / immediate effects | Convulsions may occur. Immediate effects can be expected after short-term exposure. Nausea and stomach pain may occur. There may be loss of consciousness.  |

#### 4.3 Indication of any immediate medical attention and special treatment needed

##### Immediate / special treatment

Do not induce vomiting. Immediate medical attention is required. Show this safety data sheet to the doctor in attendance. Eye bathing equipment should be available on the premises.

### 5. Fire-fighting measures

#### 5.1 Extinguishing media

Suitable extinguishing media for the surrounding fire should be used. Use water spray to cool containers.

#### 5.2 Special hazards arising from the substance or mixture

##### Exposure hazards

In combustion emits toxic fumes. Toxic.

#### 5.3 Advice for fire-fighters

Wear protective clothing to prevent contact with skin and eyes. Wear self-contained breathing apparatus.

### 6. Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

##### Personal precautions

Do not attempt to take action without suitable protective clothing - see section 8 of SDS. Do not create dust. If outside do not approach from downwind. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Notify the police and fire brigade immediately. Turn leaking containers leak-side up to prevent the escape of liquid. Refer to section 8 of SDS for personal protection details.

#### 6.2 Environmental precautions

Contain the spillage using bunding. Do not discharge into drains or rivers.

#### 6.3 Methods and material for containment and cleaning up

##### Clean-up procedures

Clean-up should be dealt with only by qualified personnel familiar with the specific substance. Transfer to a closable, labelled salvage container for disposal by an appropriate method. Absorb into dry earth or sand.

#### 6.4 Reference to other sections

Refer to section 8 of SDS.

### 7. Handling and storage

#### 7.1 Precautions for safe handling

##### Handling requirements

Avoid direct contact with the substance. Avoid the formation or spread of dust in the air. Do not handle in a confined space. Ensure there is exhaust ventilation of the area. Ensure there is sufficient ventilation of the area.

#### 7.2 Conditions for safe storage, including any incompatibilities

##### Storage conditions

Avoid contact with water or humidity. Keep container tightly closed. Store in cool, well ventilated area.

#### 7.3 Specific end use(s)

No data available.

### 8. Exposure controls/personal protection

#### 8.1 Control parameters

### Workplace exposure limits

#### 8.2 Exposure controls

|                        |  |
|------------------------|--|
| Engineering measures   | Ensure there is exhaust ventilation of the area. Ensure there is sufficient ventilation of the area.                           |
| Respiratory protection | Respiratory protective device with particle filter. Self-contained breathing apparatus must be available in case of emergency. |
| Hand protection        | Impermeable gloves. Protective gloves.   |
| Eye protection         | Ensure eye bath is to hand. Safety glasses with side-shields. Safety glasses.  |
| Skin protection        | Protective clothing.   |

### 9. Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

|   |                    |
|---|--------------------|
| Physical state                                    | Liquid             |
| Colour  | Colourless         |
| Odour   | No data available. |
| Melting point/Freezing point                      | No data available. |
| Boiling point/initial boiling point/boiling range | No data available. |
| Flammability                                      | No data available. |
| Lower/Upper explosion limit                       | No data available. |
| Flash Point                                       | No data available. |
| Auto-ignition temperature                         | No data available. |
| Decomposition temperature                         | No data available. |
| pH  | No data available. |
| Kinematic viscosity                               | No data available. |
| Solubility  | No data available. |
| Partition coefficient n-octanol/water             | No data available. |
| Vapour pressure                                   | No data available. |
| Density/relative density                          | No data available. |
| Relative vapour pressure                          | No data available. |
| Particle characteristics                          | No data available. |

#### 9.2 Other information

No data available.

### 10. Stability and reactivity

#### 10.1 Reactivity

Stable under recommended transport or storage conditions.

#### 10.2 Chemical stability

Stable under normal conditions.

#### 10.3 Possibility of hazardous reactions

##### Hazardous reactions

Decomposition may occur on exposure to conditions or materials listed below. Hazardous reactions will not occur under normal transport or storage conditions.

#### 10.4 Conditions to avoid

Flames. Hot surfaces. Heat.

#### 10.5 Incompatible materials

##### Materials to avoid

Strong acids. Strong oxidising agents.

### 11. Toxicological information

#### 11.1 Information on toxicological effects

##### a) Acute toxicity

##### Chromium (VI) compounds (as Cr)

No data available.

**Fluorides, inorganic**

No data available.

**Acrylic acid**

No data available.

**Isocyanates, all (as –NCO) Except methyl isocyanate**

No data available.

**Aluminium alkyl compounds**

No data available.

**Aluminium salts, soluble**

No data available.

**Manganese and its inorganic compounds (as Mn)**

No data available.

**MMM (Machine-made mineral fibre) (except for refractory ceramic fibres and special purpose fibres)**

No data available.

**Molybdenum compounds (as Mo) soluble compounds, insoluble compounds**

No data available.

**Nickel and its inorganic compounds (except nickel tetracarbonyl): water-soluble nickel compounds (as Ni), nickel and water-insoluble nickel compounds (as Ni)**

No data available.

**Antimony and compounds except stibine (as Sb)**

No data available.

**Arsenic and arsenic compounds except arsine (as As)**

No data available.

**Platinum compounds, soluble (except certain halogeno-Pt compounds) (as Pt)**

No data available.

**Pentyl acetates (all isomers)**

No data available.

**Barium compounds, soluble (as Ba)**

No data available.

**Pulverised fuel ash inhalable dust respirable dust**

No data available.

**Cobalt and Cobalt compounds (as Co)**

No data available.

**Beryllium and beryllium compounds (as Be)**

No data available.

**Refractory ceramic fibres and special purpose fibres, total inhalable dust, respirable fraction**

No data available.

**Rhodium (as Rh) metal fume and dust soluble salts**

No data available.

**Silica, amorphous inhalable dust respirable dust**

No data available.

**Silver (soluble compounds as Ag)**

No data available.

**Barium (soluble compounds as Ba)**

No data available.

**Chromium Metal, Inorganic Chromium (II) Compounds and Inorganic Chromium (III) Compounds (insoluble)**

No data available.

**Mercury and divalent inorganic mercury compounds including mercuric oxide and mercuric chloride (measured as mercury)**

No data available.

**Cadmium and cadmium compounds except cadmium oxide fume, cadmium sulphide and cadmium sulphide pigments (as Cd)**

No data available.

**Cadmium sulphide and cadmium sulphide pigments (respirable dust (as Cd))**

No data available.

**Selenium and compounds, except hydrogen selenide (as Se)**

No data available.

**Silica, respirable crystalline (respirable fraction)**

No data available.

**Indium and compounds (as In)**

No data available.

**Tellurium and compounds, except hydrogen telluride (as Te)**

No data available.

**Manganese and inorganic manganese compounds**

No data available.

**Chromium (II) compounds (as Cr)**

No data available.

**Chromium (III) compounds (as Cr)**

No data available.

**Iron salts (as Fe)**

No data available.

**Copper and compounds: dust and mists (as Cu)**

No data available.

**Cotton dust**

No data available.

**Cyanides, except HCN, cyanogen and cyanogen chloride (as Cn)**

No data available.

**Thallium, soluble compounds (as Tl)**

No data available.

**Tin compounds, inorganic except SnH<sub>4</sub>, (as Sn)**

No data available.

**Tin compounds, organic, except Cyhexatin (ISO), (as Sn)**

No data available.

**Mercury and divalent inorganic compounds including mercuric oxide and mercuric chloride (measured as mercury)**

No data available.

**Zirconium compounds (as Zr)**

No data available.

b) **Skin corrosion/irritation**

Skin corrosion/irritation (Category 2)

c) **Serious eye damage/irritation**

Serious eye damage/eye irritation (Category 2A)

d) **Respiratory or skin sensitisation**

Sensitization, Skin (Category 1)

e) **Germ cell mutagenicity**

Germ cell mutagenicity (Category 1A)

f) **Carcinogenicity**

Carcinogenicity (Category 1B)

g) **Reproductive toxicity**

Reproductive toxicity (Category 2)

h) **STOT-single exposure**

No data available.

i) **STOT-repeated exposure**

Specific target organ toxicity, repeated exposure (Category 1)

j) **Aspiration hazard**

No data available.

11.2 **Symptoms / routes of exposure**

|                                    |   |
|------------------------------------|---|
| <b>Skin contact</b>                | Absorption through the skin may be fatal. Irritation or pain may occur at the site of contact. There may be irritation and redness at the site of contact. There may be redness or whiteness of the skin in the area of exposure.   |
| <b>Eye contact</b>                 | The eyes may water profusely. There may be irritation and redness. There may be severe pain.  |
| <b>Ingestion</b>                   | Convulsions may occur. Nausea and stomach pain may occur. There may be loss of consciousness. There may be soreness and redness of the mouth and throat. There may be vomiting.   |
| <b>Inhalation</b>                  | Absorption through the lungs can occur causing symptoms similar to those of ingestion. Convulsions may occur. Exposure may cause coughing or wheezing. Nausea and stomach pain may occur. There may be irritation of the throat with a feeling of tightness in the chest. There may be loss of consciousness. There may be shortness of breath with a burning sensation in the throat. There may be vomiting. |
| <b>Delayed / immediate effects</b> | Convulsions may occur. Immediate effects can be expected after short-term exposure. Nausea and stomach pain may occur. There may be loss of consciousness.  |
| <b>Other information</b>           | No data available.  |

## 12. Ecological information

### 12.1 Toxicity

No data available.

### 12.2 Persistence and degradability

Biodegradable.

### 12.3 Bioaccumulative potential

No bioaccumulation potential.

### 12.4 Mobility in soil

Readily absorbed into soil.

### 12.5 Results of PBT and vPvB assessment

This substance is not identified as a PBT substance.

### 12.6 Endocrine disrupting properties

This substance is not identified as having endocrine disrupting properties

### 12.7 Other adverse effects

No data available.

## 13. Disposal considerations

### 13.1 Waste treatment methods

#### Disposal operations

Transfer to a suitable container and arrange for collection by specialised disposal company.

#### NB

The user's attention is drawn to the possible existence of regional or national regulations regarding disposal.

## 14. Transport information

## 15. Regulatory information

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

This Safety Data Sheet is prepared in accordance with Commission Regulation (EC) 1907/2006, amended by Commission Regulation (EU) 2020/787.

#### Authorisations/Restrictions

Regulation (EC) 1907/2006, REACH, Annex XIV list of substances subject to authorisation:

vPvB (Article 57e)  
vPvB (Article 57e)  
Toxic for reproduction (Article 57c)  
Endocrine disrupting properties (Article 57(f) - environment)  
Endocrine disrupting properties (Article 57(f) - environment)  
Endocrine disrupting properties (Article 57(f) - environment)  
Endocrine disrupting properties (Article 57(f) - environment)  
Endocrine disrupting properties (Article 57(f) - environment)  
Endocrine disrupting properties (Article 57(f) - environment)  
Endocrine disrupting properties (Article 57(f) - environment)  
Endocrine disrupting properties (Article 57(f) - environment)  
Endocrine disrupting properties (Article 57(f) - environment)

Regulation (EC) 1907/2006, REACH, Annex XVII restrictions on the manufacture, placing on the market and use of certain dangerous substances:

Regulation (EC) 1005/2009 on substances that deplete the ozone layer:

No data available.

Regulation (EC) 850/2004 on persistent organic pollutants, amended by (EU) No 2019/1021:

No data available.

### 15.2 Chemical safety assessment

A chemical safety assessment has not been carried out for the substance or the mixture by the supplier.

## 16. Other information

### H-Statement Full Texts

|      |                              |
|------|------------------------------|
| H301 | Toxic if swallowed           |
| H302 | Harmful if swallowed         |
| H312 | Harmful in contact with skin |
| H315 | Causes skin irritation       |

|      |   |
|------|---|
| H317 | May cause an allergic skin reaction                 |
| H319 | Causes serious eye irritation                       |
| H332 | Harmful if inhaled                                  |
| H340 | May cause genetic defects                           |
| H350 | May cause cancer                                    |
| H361 | Suspected of damaging fertility or the unborn child |
| H370 | Causes damage to organs                             |
| H400 | Very toxic to aquatic life                          |
