## **Safety Data Sheet**

www.glentham.com

#### First aid measures 4.

4.1

4.2

Skin contact	Consult a doctor. Remove all contaminated clothes and footwear immediately unless stuck to skin. Wash immediately with plenty of soap and water.
Eye contact	Consult a doctor. Bathe the eye with running water for 15 minutes.
Ingestion	Consult a doctor.
Inhalation ost important sy	Remove casualty from exposure ensuring one's own safety whilst doing so. mptoms and effects, both acute and delayed
Skin contact	There may be irritation and redness at the site of contact.
Eye contact	The eyes may water profusely. There may be irritation and redness.

Delayed / immediate effects Delayed effects can be expected after long-term exposure.

Exposure may cause coughing or wheezing.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Immediate / special treatment No data available.

#### Fire-fighting measures 5.

#### 5.1 Extinguishing media

Inhalation

Suitable extinguishing media for the surrounding fire should be used.

#### 5.2 Special hazards arising from the substance or mixture

Exposure hazards

In combustion emits toxic fumes.

#### 5.3 Advice for fire-fighters

Wear protective clothing to prevent contact with skin and eyes. Wear self-contained breathing apparatus.

#### 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

#### Personal precautions

6.1

Do not attempt to take action without suitable protective clothing - see section 8 of SDS. Do not create dust.

#### 6.2 **Environmental precautions**

Do not discharge into drains or rivers.

#### 6.3 Methods and material for containment and cleaning up

Clean-up procedures

Transfer to a closable, labelled salvage container for disposal by an appropriate method.

#### 6.4 Reference to other sections

Refer to section 8 of SDS.

#### 7. Handling and storage

#### 7.1 Precautions for safe handling

### Handling requirements

Avoid direct contact with the substance. Avoid the formation or spread of dust in the air. Ensure there is sufficient ventilation of the area.

www.glentham.com

#### 7.2 Conditions for safe storage, including any incompatibilities

#### Storage conditions

Avoid contact with water or humidity. Keep container tightly closed. Store in cool, well ventilated area.

#### 7.3 Specific end use(s)

No data available.

#### 8. Exposure controls/personal protection

### 8.1 Control parameters

Workplace exposure limits

### 8.2 Exposure controls

•	
Engineering measures	Ensure there is sufficient ventilation of the area.
Respiratory protection	Respiratory protective device with particle filter. Self- contained breathing apparatus must be available in case of emergency.
Hand protection	Protective gloves.
Eye protection	Ensure eye bath is to hand. Safety glasses.
Skin protection	Protective clothing.

## 9. Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

Physical state	Solid
Colour	Yellow
Odour	No data available.
Melting point/Freezing point	No data available.
Boiling point/initial boiling point/boiling range	No data available.
Flammability	No data available.
Lower/Upper explosion limit	No data available.
Flash Point	No data available.
Auto-ignition temperature	No data available.
Decomposition temperature	No data available.
рН	6.0  ightarrow 7.0
Kinematic viscosity	No data available.
Solubility	No data available.
Partition coefficient n-octanol/water	No data available.
Vapour pressure	No data available.
Density/relative density	No data available.
Relative vapour pressure	No data available.
Particle characteristics	No data available.

### 9.2 Other information

No data available.

#### 10. Stability and reactivity

### 10.1 Reactivity

Stable under recommended transport or storage conditions.

## 10.2 Chemical stability

Stable under normal conditions.

## <sup>10.3</sup> Possibility of hazardous reactions

#### Hazardous reactions

Decomposition may occur on exposure to conditions or materials listed below. Hazardous reactions will not occur under normal transport or storage conditions.

### 10.4 Conditions to avoid

Heat.

<sup>10.5</sup> Incompatible materials

www.glentham.com

Materials to avoid Strong acids. Strong oxidising agents.

11.	Toxicological information
11.1	Information on toxicological effects
a)	Acute toxicity
	Chromium (VI) compounds (as Cr)
	No data available.
	Fluorides, inorganic
	No data available.
	Acrylic acid
	No data available.
	Isocyanates, all (as –NCO) Except methyl isocyanate
	No data available.
	Aluminium alkyl compounds
	No data available.
	Aluminium salts, soluble
	No data available.
	Manganese and its inorganic compounds (as Mn)
	No data available.
	MMMF (Machine-made mineral fibre) (except for refractory ceramic fibres and special purpose fibres)
	No data available.
	Molybdenum compounds (as Mo) soluble compounds, insoluble compounds
	No data available.
	Nickel and its inorganic compounds (except nickel tetracarbonyl): water-soluble nickel compounds (as Ni), nickel and water-insoluble nickel compounds (as Ni)
	No data available.
	Antimony and compounds except stibine (as Sb)
	No data available.
	Arsenic and arsenic compounds except arsine (as As)
	No data available.
	Platinum compounds, soluble (except certain halogeno-Pt compounds) (as Pt)
	No data available.
	Pentyl acetates (all isomers)
	No data available.
	Barium compounds, soluble (as Ba)
	No data available.
	Pulverised fuel ash inhalable dust respirable dust
	No data available.
	Cobalt and Cobalt compounds (as Co)
	No data available.
	Beryllium and beryllium compounds (as Be)
	No data available.
	Refractory ceramic fibres and special purpose fibres, total inhalable dust, respirable fraction
	No data available.
	Rhodium (as Rh) metal fume and dust soluble salts
	No data available.
	Silica, amorphous inhalable dust respirable dust
	No data available.
	Silver (soluble compounds as Ag)
	No data available.
	Barium (soluble compounds as Ba)
	No data available.
	Chromium Metal, Inorganic Chromium (II) Compounds and Inorganic Chromium (III) Compounds (insoluble)

GE2501 v2.0

## Safety Data Sheet

www.glentham.com

No data available. Mercury and divalent inorganic mercury compounds including mercuric oxide and mercuric chloride (measured as mercury) No data available. Cadmium and cadmium compounds except cadmium oxide fume, cadmium sulphide and cadmium sulphide pigments (as Cd) No data available. Cadmium sulphide and cadmium sulphide pigments (respirable dust (as Cd)) No data available. Selenium and compounds, except hydrogen selenide (as Se) No data available. Silica, respirable crystalline (respirable fraction) No data available. Indium and compounds (as In) No data available. Tellurium and compounds, except hydrogen telluride (as Te) No data available. Manganese and inorganic manganese compounds No data available. Chromium (II) compounds (as Cr) No data available. Chromium (III) compounds (as Cr) No data available. Iron salts (as Fe) No data available. Copper and compounds: dust and mists (as Cu) No data available. Cotton dust No data available. Cyanides, except HCN, cyanogen and cyanogen chloride (as Cn) No data available. Thallium, soluble compounds (as TI) No data available. Tin compounds, inorganic except SnH4, (as Sn) No data available. Tin compounds, organic, except Cyhexatin (ISO), (as Sn) No data available. Mercury and divalent inorganic compounds including mercuric oxide and mercuric chloride (measured as mercury) No data available. Zirconium compounds (as Zr) No data available. Skin corrosion/irritation No data available. Serious eye damage/irritation No data available. Respiratory or skin sensitisation Sensitization, Skin (Category 1) Germ cell mutagenicity No data available. Carcinogenicity No data available. **Reproductive toxicity** No data available. STOT-single exposure No data available.

Regulation (EC) 1907/2006, REACH, Annex XIV list of substances subject to authorisation:	vPvB (Article 57e) vPvB (Article 57e) Toxic for reproduction (Article 57c) Endocrine disrupting properties (Article 57(f) - environment) Endocrine disrupting properties (Article 57(f) - environment) Endocrine disrupting properties (Article 57(f) - environment)
	Endocrine disrupting properties (Article 57(f) - environment)
	Endocrine disrupting properties (Article 57(f) - environment)
	Endocrine disrupting properties (Article 57(f) - environment)
	Endocrine disrupting properties (Article 57(f) - environment)
Regulation (EC) 1907/2006, REACH, Annex XVII restrictions on the manufacture, placing on the market and use of certain dangerous substances:	No data available.
Regulation (EC) 1005/2009 on substances that deplete the ozone layer:	No data available.
Regulation (EC) 850/2004 on persistent organic pollutants, amended by (EU) No	No data available.

## 2019/1021: 15.2 Chemical safety assessment

A chemical safety assessment has not been carried out for the substance or the mixture by the supplier.

### 16. Other information

H317

#### H-Statement Full Texts

May cause an allergic skin reaction

### Abbreviations Full Texts

ADN ADR	European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways European Agreement concerning the International Carriage of Dangerous Goods by Road
ALARP	As low as is reasonably practicable
CAS	Chemical Abstracts Service
CLP	Classification, Labelling and Packaging Regulations
COSHH	Control of Substances Hazardous to Health
EC Number	European Community Number
EC50	Effective Concentration 50%
EILINCS	European List of Notified Chemical Substances
EINECS	European Inventory of Existing Commercial Chemical Substances
GHS	Globally Harmonised System
HSE IATA	Health & Safety Executive UK International Air Transport Association
IM	Intramuscular
IMDG	The International Maritime Dangerous Goods Code
IP	Intraperitoneal
IV	Intravascular
LD50	Lethal Dose 50%
LOEC	Lowest Observable Effective Concentration
LTEL	Long Term Exposure Limit
NOEC	No Observable Effective Concentration
OECD	Organisation for Economic Cooperations and Development
PBT	Persistent Bioaccumulative Toxic
PPE	Personal Protective Equipment
REACH	Registration, Evaluation, Authorisation and Restriction of Chemicals
RID	Regulations Concerning the International Carriage of Dangerous Goods by Rail
SC	Subcutaneous
SDS	Safety Data Sheet
STEL	Short Term Exposure Limit
VOC	Volatile Organic Compounds
vPvB	Very Persistent and Very Bioaccumulative
WEL	Workplace Exposure Limits
