

## Product Datasheet

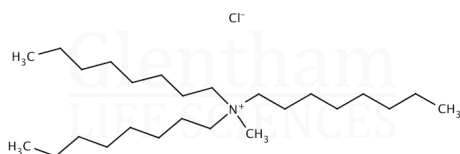

### GE8419 - Trioctylmethylammonium chloride

#### Product Details

|                    |                                 |
|--------------------|---------------------------------|
| Product Name       | Trioctylmethylammonium chloride |
| Glenthams Code     | GE8419                          |
| CAS Number         | 5137-55-3                       |
| EINECS             | 264-120-7                       |
| PubChem SID        | 310281408                       |
| Related Categories | Biochemicals                    |

#### Structure

|                   |                                        |
|-------------------|----------------------------------------|
| Molecular Weight  | : 404.16                               |
| Molecular Formula | : C <sub>25</sub> H <sub>54</sub> N.Cl |

#### Precautionary Codes

P273, P280,  
P305+P351+P338, P310,  
P301+P310

#### Pictograms

#### UN Number, Class, PG (RID)

UN2810 - 6.1 - PG III

#### Glenthams Product Specification

|                      |                                         |
|----------------------|-----------------------------------------|
| Physical Description | : Light yellow to yellow viscous liquid |
| Assay                | : ≥ 98.0%                               |
| Version              | : v1.0                                  |

#### About Trioctylmethylammonium chloride

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

|                    |                                                                           |
|--------------------|---------------------------------------------------------------------------|
| CLP Classification | Aquatic Chronic 1, Skin Irr. 2, Eye Dam. 1, Acute Tox. 3, Aquatic Acute 1 |
| Signal Word        | Danger                                                                    |
| Hazard Codes       | H410, H315, H318, H301, H400                                              |
