

## Product Datasheet

### GK1534 - 4,4''-Bis(dimethylamino)benzhy-drol

Pictograms

#### Product Details

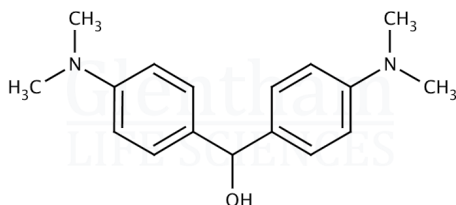

|               |                                     |
|---------------|-------------------------------------|
| Product Name  | 4,4''-Bis(dimethylamino)benzhy-drol |
| Glentham Code | GK1534                              |
| CAS Number    | 119-58-4                            |
| PubChem SID   | 310267884                           |

#### Glentham Product Specification

|                      |                                                                       |
|----------------------|-----------------------------------------------------------------------|
| Physical Description | : White to off-white, light-yellow or yellow-brown powder or crystals |
| Identification (IR)  | : To conform to standard                                              |
| Purity (HPLC)        | : $\geq 96.0\%$                                                       |
| Version              | : v1.0                                                                |

#### Structure

|                   |                      |
|-------------------|----------------------|
| Molecular Weight  | : 270.38             |
| Molecular Formula | : $C_{17}H_{22}N_2O$ |

#### About 4,4''-Bis(dimethylamino)benzhy-drol

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as dangerous for transport.

|                     |                                                  |
|---------------------|--------------------------------------------------|
| CLP Classification  | Skin Irr. 2, Eye Irr. 2A                         |
| Signal Word         | Warning                                          |
| Hazard Codes        | H315, H319                                       |
| Precautionary Codes | P305+P351+P338,<br>P337+P313, P280,<br>P302+P352 |
