

## Product Datasheet

### GK2277 - Benzenesulfonic acid

#### Product Details

|               |                      |
|---------------|----------------------|
| Product Name  | Benzenesulfonic acid |
| Glentham Code | GK2277               |
| CAS Number    | 98-11-3              |
| EINECS        | 202-638-7            |
| MDL Number    | MFCD00011689         |
| PubChem SID   | 310267339            |

#### Structure

|                   |                |
|-------------------|----------------|
| Molecular Weight  | : 158.18       |
| Molecular Formula | : $C_6H_6O_3S$ |

#### Storage

Recommended storage temperature: .

#### Hazards and Transport

|                     |                                                                          |
|---------------------|--------------------------------------------------------------------------|
| CLP Classification  | Acute Tox. 4, Eye Dam. 1,<br>Skin Corr. 1C                               |
| Signal Word         | Danger                                                                   |
| Hazard Codes        | H302, H318, H314                                                         |
| Precautionary Codes | P301+P330+P331, P280,<br>P303+P361+P353,<br>P304+P340,<br>P305+P351+P338 |

#### Pictograms

UN Number, Class, PG  
(RID)

UN2585 - 8 - PG III

#### Glentham Product Specification

|                      |                  |
|----------------------|------------------|
| Physical Description | : White crystals |
| Free Acid            | : $\leq 2.0\%$   |
| Assay (Titration)    | : $\geq 98.0\%$  |
| Version              | : v1.0           |

#### About Benzenesulfonic acid
