

## Product Datasheet

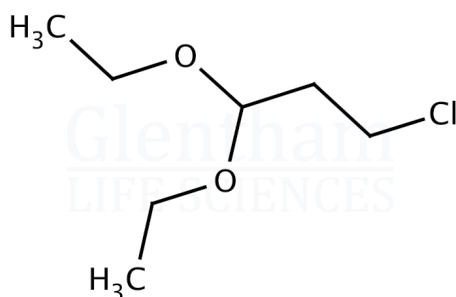

### GK3646 - 3-Chloropropionaldehyde diethyl acetal

#### Product Details

|                |                                        |
|----------------|----------------------------------------|
| Product Name   | 3-Chloropropionaldehyde diethyl acetal |
| Glenthams Code | GK3646                                 |
| CAS Number     | 35573-93-4                             |
| EINECS         | 252-623-4                              |
| MDL Number     | MFCD00000994                           |
| PubChem SID    | 310270068                              |

#### Structure

|                   |                                                   |
|-------------------|---------------------------------------------------|
| Molecular Weight  | : 166.65                                          |
| Molecular Formula | : C <sub>7</sub> H <sub>15</sub> ClO <sub>2</sub> |

#### Storage

Recommended storage temperature: +4°C.

#### Hazards and Transport

|                     |                                                              |
|---------------------|--------------------------------------------------------------|
| CLP Classification  | Skin Irr. 2, Eye Irr. 2A, Flam. Liq. 3, STOT SE 3, STOT SE 3 |
| Signal Word         | Warning                                                      |
| Hazard Codes        | H315, H319, H226, H335, H336                                 |
| Precautionary Codes | P305+P351+P338, P261                                         |

#### Pictograms

UN Number, Class, PG (RID)

UN1993 - 3 - PG III

#### Glenthams Product Specification

|                      |                            |
|----------------------|----------------------------|
| Physical Description | : Clear, colourless liquid |
| Assay                | : ≥ 95.0%                  |
| Version              | : v1.0                     |

#### About 3-Chloropropionaldehyde diethyl acetal
