

## Product Datasheet

### GK5522 - Sodium caprylate, USP grade

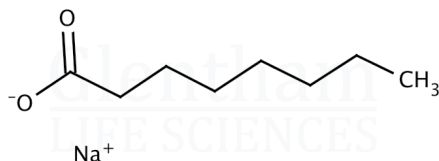

#### Product Details

|                    |                             |
|--------------------|-----------------------------|
| Product Name       | Sodium caprylate, USP grade |
| Glentham Code      | GK5522                      |
| CAS Number         | 1984-06-1                   |
| EINECS             | 217-850-5                   |
| MDL Number         | MFCD00058511                |
| PubChem SID        | 310280075                   |
| Related Categories | Detergents                  |

|                                |                                |
|--------------------------------|--------------------------------|
| Physical Description           | : White to almost white powder |
| Identification                 | : To pass tests A, B           |
| Solubility (10% in water)      | : Clear, colourless solution   |
| pH (10% in water)              | : 8.0 - 10.5                   |
| Heavy Metals                   | : $\leq 10\text{ppm}$          |
| Any Individual Impurity        | : $\leq 0.3\%$                 |
| Total Impurities               | : $\leq 0.5\%$                 |
| Loss on Drying                 | : $\leq 3.0\%$                 |
| Assay                          | : 99.0 - 101.0 % (dried basis) |
| Pharmacopoeia Specification(s) | : USP/NF                       |
| Version                        | : v1.0                         |

#### Structure

|                   |   |
|-------------------|---|
| Molecular Weight  | : 166.20                                |
| Molecular Formula | : $\text{C}_8\text{H}_{15}\text{NaO}_2$ |

#### About Sodium caprylate, USP grade

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as hazardous under CLP.  
Not classified as dangerous for transport.
