

## Product Datasheet

### GK7106 - Benzil

Pictograms

#### Product Details

|               |              |
|---------------|--------------|
| Product Name  | Benzil       |
| Glentham Code | GK7106       |
| CAS Number    | 134-81-6     |
| EINECS        | 205-157-0    |
| MDL Number    | MFCD00003080 |
| PubChem SID   | 310267353    |

#### Glentham Product Specification

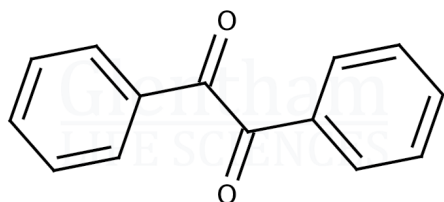

|                      |                                                        |
|----------------------|--------------------------------------------------------|
| Physical Description | : Yellow to dark yellow crystalline powder or crystals |
| Melting Point        | : 92.0 - 98.0 °C                                       |
| Assay                | : ≥ 98.0%                                              |
| Version              | : v1.0                                                 |

#### Structure

|                   |                                                  |
|-------------------|--------------------------------------------------|
| Molecular Weight  | : 210.23                                         |
| Molecular Formula | : C <sub>14</sub> H <sub>10</sub> O <sub>2</sub> |

#### About Benzil

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as dangerous for transport.

|                     |                                                   |
|---------------------|---------------------------------------------------|
| CLP Classification  | Skin Irr. 2, STOT SE 3,<br>STOT SE 3, Eye Irr. 2A |
| Signal Word         | Warning                                           |
| Hazard Codes        | H315, H336, H335, H319                            |
| Precautionary Codes | P280, P261, P302+P352,<br>P305+P351+P338          |
