

## Product Datasheet

### GK7570 - Phthalic acid

Pictograms

#### Product Details

|                    |                                                 |
|--------------------|-------------------------------------------------|
| Product Name       | Phthalic acid                                   |
| Glentham Code      | GK7570                                          |
| CAS Number         | 88-99-3                                         |
| EINECS             | 201-873-2                                       |
| MDL Number         | MFCD00002467                                    |
| PubChem SID        | 310278959                                       |
| Related Categories | Analytical Reagents, Organics,<br>Organic Acids |

#### Glentham Product Specification

|                             |                                            |
|-----------------------------|--------------------------------------------|
| Physical Description        | : White to almost white crystalline powder |
| Solubility (5% in methanol) | : Clear, colourless solution               |
| Residue on Ignition         | : ≤ 0.05%                                  |
| Assay                       | : 99.0 - 101.0 % (dried basis)             |
| Version                     | : v1.0                                     |

#### Structure

Molecular Weight : 166.13  
Molecular Formula :  $C_8H_6O_4$

#### About Phthalic acid

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as dangerous for transport.

|                     |                                                   |
|---------------------|---------------------------------------------------|
| CLP Classification  | Skin Irr. 2, STOT SE 3,<br>STOT SE 3, Eye Irr. 2A |
| Signal Word         | Warning                                           |
| Hazard Codes        | H315, H336, H335, H319                            |
| Precautionary Codes | P280, P261, P302+P352,<br>P305+P351+P338          |
