|                            |                                                  |
|----------------------------|--------------------------------------------------|
| Physical Description       | : Pale yellow to yellow-green powder or crystals |
| Identification (IR)        | : To conform to standard                         |
| Solubility (5% in ethanol) | : Clear, pale yellow to dark yellow solution     |
| Melting Point              | : 96.0 - 100.0 °C                                |
| Purity (GC)                | : ≥ 98.0%                                        |
| Version                    | : v1.0                                           |

### Structure

|                   |                                        |
|-------------------|----------------------------------------|
| Molecular Weight  | : 231.68                               |
| Molecular Formula | : C <sub>13</sub> H <sub>10</sub> ClNO |
