

## Product Datasheet

### GL0754 -

### Tricaprylmethylammonium chloride

#### Product Details

|                    |                                  |
|--------------------|----------------------------------|
| Product Name       | Tricaprylmethylammonium chloride |
| Glenthams Code     | GL0754                           |
| CAS Number         | 63393-96-4                       |
| EINECS             | 264-120-7                        |
| MDL Number         | MFCD00011862                     |
| Related Categories | Detergents                       |

#### Structure

|                   |                                                         |
|-------------------|---------------------------------------------------------|
| Molecular Weight  | : 404.17                                                |
| Molecular Formula | : $[\text{CH}_3(\text{CH}_2)_7]_3\text{NCH}_3\text{Cl}$ |

#### Hazard Codes

H410, H315, H318, H301, H400

#### Precautionary Codes

P273, P280, P305+P351+P338, P310, P301+P310

#### Pictograms

#### UN Number, Class, PG (RID)

UN2810 - 6.1 - PG III

#### Glenthams Product Specification

|                      |                                                 |
|----------------------|-------------------------------------------------|
| Physical Description | : Pale yellow to yellow viscous liquid or paste |
| Water                | : $\leq 5.0\%$                                  |
| Assay                | : $\geq 80.0\%$ (mixture of C8-C10)             |
| Version              | : v1.0                                          |

#### About Tricaprylmethylammonium chloride

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

|                    |                                                                           |
|--------------------|---------------------------------------------------------------------------|
| CLP Classification | Aquatic Chronic 1, Skin Irr. 2, Eye Dam. 1, Acute Tox. 3, Aquatic Acute 1 |
| Signal Word        | Danger                                                                    |
