

## Product Datasheet

### GL0766 - (-)-alpha-Pinene

#### Product Details

|                |                  |
|----------------|------------------|
| Product Name   | (-)-alpha-Pinene |
| Glenthams Code | GL0766           |
| CAS Number     | 7785-26-4        |
| EINECS         | 232-077-3        |
| MDL Number     | MFCD00064145     |
| PubChem SID    | 310279016        |

#### Structure

|                   |                                   |
|-------------------|-----------------------------------|
| Molecular Weight  | : 136.24                          |
| Molecular Formula | : C <sub>10</sub> H <sub>16</sub> |

#### Pictograms

UN Number, Class, PG (RID) UN2368 - 3 - PG III

#### Glenthams Product Specification

|                      |                                     |
|----------------------|-------------------------------------|
| Physical Description | : Colourless to light yellow liquid |
| Assay                | : ≥ 97.0%                           |
| Version              | : v1.0                              |

#### About (-)-alpha-Pinene

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

|                     |                                                                                                        |
|---------------------|--------------------------------------------------------------------------------------------------------|
| CLP Classification  | Aquatic Chronic 1, Skin Irr. 2, Skin Sens. 1, Aquatic Acute 1, Flam. Liq. 3, Acute Tox. 4, Asp. Tox. 1 |
| Signal Word         | Danger                                                                                                 |
| Hazard Codes        | H410, H315, H317, H400, H226, H302, H304                                                               |
| Precautionary Codes | P301+P330+P331, P280, P303+P361+P353, P210, P333+P313, P301+P310                                       |
