

## Product Datasheet

### GL4115 - Paraffin wax, granular (56 - 60)

#### Product Details

|                |                                  |
|----------------|----------------------------------|
| Product Name   | Paraffin wax, granular (56 - 60) |
| Glenthams Code | GL4115                           |
| CAS Number     | 8002-74-2                        |
| EINECS         | 232-315-6                        |
| MDL Number     | MFCD00132833                     |

|                      |                                                                         |
|----------------------|-------------------------------------------------------------------------|
| Physical Description | : White to almost white pellets or waxy solids (colourless when liquid) |
| Melting Point        | : 56.0 - 60.0 °C                                                        |
| Version              | : v1.0                                                                  |

#### About Paraffin wax, granular (56 - 60)

No further details on record.

#### Structure

Molecular Weight : -  
Molecular Formula : -

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as hazardous under CLP.  
Not classified as dangerous for transport.
