Name		Identifier	%	Classification
Palmitic anhydride		CAS: 623-65-4 EC: 210-805-0 REACH: Not applicable	96.0%	H314, Skin Corr. 1B
irst aid measures				
escription of first aid	d measures			
Skin contact		ed clothes and footwear		longer if substance is still on skin. unless stuck to skin. Transfer to hospital
Eye contact	Transfer to hospital for	specialist examination. I	Bathe the eye	with running water for 15 minutes.
Ingestion	Do not induce vomiting. Give 1 cup of water to drink every 10 minutes. If unconscious and breathing is OK, place in the recovery position. If unconscious, check for breathing and apply artificial respiration if necessary. Transfer to hospital as soon as possible. Wash out mouth with water.			
Inhalation	ensure the casualty sits position. If unconscious	or lies down. If uncons , check for breathing an	cious and brea d apply artifici	le oxygen if available. If conscious, athing is OK, place in the recovery al respiration if necessary. Transfer to e ensuring one's own safety whilst doing
lost important symp	oms and effects, both ac	ute and delayed		
Skin contact	Blistering may occur. P	rogressive ulceration wil	l occur if treat	ment is not immediate.
Eye contact	Corneal burns may occ	ur. May cause permane	nt damage.	
Ingestion	Dlaad may be vemited	Carracius hurna may ar		the line. There may be blooding from the

Ingestion	Blood may be vomited. Corrosive burns may appear around the lips. There may be bleeding from the mouth or nose.
Inhalation	Exposure may cause coughing or wheezing. There may be shortness of breath with a burning sensation in the throat.
Delayed / immediate effects	Immediate effects can be expected after short-term exposure. There may be bleeding from the mouth or nose.

### 4.3 Indication of any immediate medical attention and special treatment needed

### Immediate / special treatment

Do not induce vomiting. Eye bathing equipment should be available on the premises.

### 5. Fire-fighting measures

### 5.1 Extinguishing media

Suitable extinguishing media for the surrounding fire should be used. Use water spray to cool containers.

### Special hazards arising from the substance or mixture

### Exposure hazards

Corrosive. In combustion emits toxic fumes.

### 5.3 Advice for fire-fighters

Wear protective clothing to prevent contact with skin and eyes. Wear self-contained breathing apparatus.

### 6. Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

### Personal precautions

Do not attempt to take action without suitable protective clothing - see section 8 of SDS. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Notify the police and fire brigade immediately.

5.2

## Glentham

### Safety Data Sheet

www.glentham.com

### 6.2 Environmental precautions

Do not discharge into drains or rivers.

### 6.3 Methods and material for containment and cleaning up

### Clean-up procedures

Clean-up should be dealt with only by qualified personnel familiar with the specific substance. Transfer to a closable, labelled salvage container for disposal by an appropriate method.

### 6.4 Reference to other sections

Refer to section 8 of SDS.

### 7. Handling and storage

#### 7.1 Precautions for safe handling

#### Handling requirements

Avoid direct contact with the substance. Avoid the formation or spread of dust in the air. Do not handle in a confined space. Ensure there is sufficient ventilation of the area.

### 7.2 Conditions for safe storage, including any incompatibilities

### Storage conditions

Avoid contact with water or humidity. Keep container tightly closed. Store in cool, well ventilated area.

### 7.3 Specific end use(s)

No data available.

#### 8. Exposure controls/personal protection

### 8.1 Control parameters

Workplace exposure limits

No workplace exposure limit control parameters set

### 8.2 Exposure controls

Engineering measures	Ensure there is sufficient ventilation of the area.
Respiratory protection	Respiratory protective device with particle filter. Self- contained breathing apparatus must be available in case of emergency.
Hand protection	Protective gloves.
Eye protection	Tightly fitting safety goggles. Ensure eye bath is to hand.
Skin protection	Protective clothing.

### 9. Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

Physical state	Solid
Colour	White
Odour	No data available.
Melting point/Freezing point	64 °C
Boiling point/initial boiling point/boiling range	No data available.
Flammability	No data available.
Lower/Upper explosion limit	No data available.
Flash Point	No data available.
Auto-ignition temperature	No data available.
Decomposition temperature	No data available.
рН	No data available.
Kinematic viscosity	No data available.
Solubility	No data available.
Partition coefficient n-octanol/water	No data available.
Vapour pressure	No data available.
Density/relative density	0.838
Relative vapour pressure	No data available.
Particle characteristics	No data available.

# Glentham

### Safety Data Sheet

www.glentham.com

9.2	Other	information	

No data available.

### 10. Stability and reactivity

### 10.1 Reactivity

Stable under recommended transport or storage conditions.

### 10.2 Chemical stability

Stable under normal conditions.

### <sup>10.3</sup> Possibility of hazardous reactions

### Hazardous reactions

Decomposition may occur on exposure to conditions or materials listed below. Hazardous reactions will not occur under normal transport or storage conditions.

#### <sup>10.4</sup> Conditions to avoid

Heat.

### <sup>10.5</sup> Incompatible materials

### Materials to avoid

Strong acids. Strong oxidising agents.

### **11.** Toxicological information

### <sup>11.1</sup> Information on toxicological effects

### a) Acute toxicity

No data available.

- b) Skin corrosion/irritation
   Skin corrosion/irritation (Category 1B)
- c) Serious eye damage/irritation No data available.
- d) Respiratory or skin sensitisation No data available.
- e) Germ cell mutagenicity No data available.
- f) Carcinogenicity No data available.
- g) Reproductive toxicity No data available.
- h) STOT-single exposure No data available.
- i) STOT-repeated exposure No data available.

### j) Aspiration hazard

No data available.

#### Symptoms / routes of exposure

Skin contact	Blistering may occur. Progressive ulceration will occur if treatment is not immediate.		
Eye contact	Corneal burns may occur. May cause permanent damage.		
Ingestion	Blood may be vomited. Corrosive burns may appear around the lips. There may be bleeding from the mouth or nose.		
Inhalation	Exposure may cause coughing or wheezing. There may be shortness of breath with a burning sensation in the throat.

### 15. Regulatory information

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

This Safety Data Sheet is prepared in accordance with Commission Regulation (EC) 1907/2006, amended by Commission Regulation (EU) 2020/878.

Authorisations/R	estrictions
Authorisations/R	estrictions

Regulation (EC) 1907/2006, REACH, Annex XIV list of substances subject to authorisation:	No data available.
Regulation (EC) 1907/2006, REACH, Annex XVII restrictions on the manufacture, placing on the market and use of certain dangerous substances:	No data available.
Regulation (EC) 1005/2009 on substances that deplete the ozone layer:	No data available.
Regulation (EC) 850/2004 on persistent organic pollutants, amended by (EU) No 2019/1021:	No data available.

### 15.2 Chemical safety assessment

A chemical safety assessment has not been carried out for the substance or the mixture by the supplier.

### 16. Other information
