

## Product Datasheet

### GP1210 - Finasteride, USP grade

#### Product Details

|                    |                                |
|--------------------|--------------------------------|
| Product Name       | Finasteride, USP grade         |
| Glentham Code      | GP1210                         |
| CAS Number         | 98319-26-7                     |
| MDL Number         | MFCD00869737                   |
| Related Categories | APIs, Biochemicals, Cytotoxins |

#### Structure

|                   |                                                                 |
|-------------------|-----------------------------------------------------------------|
| Molecular Weight  | : 372.54                                                        |
| Molecular Formula | : C <sub>23</sub> H <sub>36</sub> N <sub>2</sub> O <sub>2</sub> |

### Glentham Product Specification

|                                |                                           |
|--------------------------------|-------------------------------------------|
| Physical Description           | : White or almost white powder            |
| Identification (IR)            | : To conform to standard                  |
| Identification                 | : RT of peak conforms to standard         |
| Specific Optical Rotation      | : -56.0 - -60.0 ° (1% in methanol, 405nm) |
| Heavy Metals                   | : ≤ 10ppm                                 |
| Any Individual Impurity        | : ≤ 0.5%                                  |
| Total Impurities               | : ≤ 1.0%                                  |
| Residue on Ignition            | : ≤ 0.1%                                  |
| Water                          | : ≤ 0.3%                                  |
| Assay                          | : 98.5 - 101.0 % (anhydrous basis)        |
| Pharmacopoeia Specification(s) | : USP                                     |
| Version                        | : v1.0                                    |

### About Finasteride, USP grade

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as dangerous for transport.

|                     |                       |
|---------------------|-----------------------|
| CLP Classification  | Acute Tox. 4          |
| Signal Word         | Warning               |
| Hazard Codes        | H302                  |
| Precautionary Codes | P280, P261, P301+P312 |
| Pictograms          |                       |
