## According to REACH Regulations (EC) 1907/2006 and (EU) 2020/878

### Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

1.

| Product code  | : GP1219  |
|---------------|---|
| Product name  | : Capsaicin, natural  |
| CAS number    | : 404-86-4  |
| EINECS        | : 206-969-8   |
| Physical form | : solid, substance  |
| REACH         | : A registration number is not available for this substance as the substance or its uses<br>are exempted from registration, the annual tonnage does not require a registration or<br>the registration is envisaged for a later registration deadline. |

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

PC21: Laboratory chemicals.

#### 1.3 Details of the supplier of the safety data sheet

| Company name | : | Glentham Life Sciences Ltd | Telephone | : | +44 (0) 1225 667 798 |
|--------------|---|----------------------------|-----------|---|----------------------|
|              |   | Unit 5 Leafield Way        | Fax       | : | +44 (0) 2033 978 909 |
|              |   | Corsham SN13 9SW           | Email     | : | info@glentham.com    |
|              |   | United Kingdom             | Web       | : | www.glentham.com     |
|              |   |                            |           |   |                      |

#### 1.4 **Emergency telephone number**

Emergency telephone : NHS Direct 111 (UK, 24 hours), 112 (EU, 24 Hours), +44 (0) 1225 667 798 (09.00 - 17.00 GMT) number

#### 2. Hazards identification

#### 2.1 Classification of the substance or mixture

Classification under CLP according to (EC) 1272/2008

| H301 | Acute Tox. 3  |
|------|---------------|
| H315 | Skin Irr. 2   |
| H317 | Skin Sens. 1  |
| H319 | Eye Irr. 2A   |
| H334 | Resp. Sens. 1 |
| H335 | STOT SE 3     |
| H336 | STOT SE 3     |

#### 2.2 Label elements

Label elements under CLP according to (EC) 1272/2008

Pictograms

| Signal words           | Danger   |
|------------------------|--|
| Hazard statements      |  |
| H301                   | Toxic if swallowed   |
| H315                   | Causes skin irritation   |
| H317                   | May cause an allergic skin reaction  |
| H319                   | Causes serious eye irritation  |
| H334                   | May cause allergy or asthma symptoms or breathing difficulties if inhaled  |
| H335                   | May cause respiratory irritation   |
| H336                   | May cause drowsiness or dizziness  |
| Precautionary statemer | nts  |
| P260                   | Do not breathe dust/fume/gas/mist/vapors/spray.  |
| P280                   | Wear protective gloves/protective clothing/eye protection/face protection.   |
| P301+P310              | IF SWALLOWED: Immediately call a POISON CENTER/doctor/   |
| P305+P351+P338         | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing. |

# Safety Data Sheet

www.glentham.com

| Other hazards |  |
|---------------|--|
| P261          | Avoid breathing dust.  |
| P264          | Do not breathe fume.   |
| P342+P311     | IF experiencing respiratory symptoms: Call a POISON CENTER/doctor/ |
|               |  |

## 2.3

PBT

This substance is not identified as a PBT substance.

#### Composition/information on ingredients 3.0

#### 3.1 Substances

| Name               | Identifier                  | %     | Classification                          |
|--------------------|-----------------------------|-------|---|
| Capsaicin, natural | CAS: 404-86-4               | 55.0% | H301, Acute Tox. 3                      |
|                    | EC: 206-969-8<br>REACH: Not |       | H315, Skin Irr. 2<br>H317, Skin Sens. 1 |
|                    | applicable                  |       | H319, Eye Irr. 2A                       |
|                    |                             |       | H334, Resp. Sens. 1                     |
|                    |                             |       | H335, STOT SE 3                         |
|                    |                             |       | H336, STOT SE 3                         |

#### 4. First aid measures

#### 4.1 Description of first aid measures

| Skin contact     | Consult a doctor. Drench the affected skin with running water for 10 minutes or longer if substance is still on skin. Remove all contaminated clothes and footwear immediately unless stuck to skin. Transfer to hospital if there are burns or symptoms of poisoning. Wash immediately with plenty of soap and water.   |
|------------------|--|
| Eye contact      | Consult a doctor. Transfer to hospital for specialist examination. Bathe the eye with running water for 15 minutes.  |
| Ingestion        | Consult a doctor. Do not induce vomiting. If conscious, give half a litre of water to drink immediately. If unconscious and breathing is OK, place in the recovery position. If unconscious, check for breathing and apply artificial respiration if necessary. Transfer to hospital as soon as possible. Wash out mouth with water.   |
| Inhalation       | If breathing becomes bubbly, have the casualty sit and provide oxygen if available. If conscious,<br>ensure the casualty sits or lies down. If unconscious and breathing is OK, place in the recovery<br>position. If unconscious, check for breathing and apply artificial respiration if necessary. Remove<br>casualty from exposure ensuring one's own safety whilst doing so. Transfer to hospital as soon as<br>possible. Consult a doctor. |
| Most important s | ymptoms and effects, both acute and delayed  |

| Skin contact                   | Absorption through the skin may be fatal. Irritation or pain may occur at the site of contact. There may be irritation and redness at the site of contact. There may be redness or whiteness of the skin in the area of exposure.  |
|--------------------------------|--|
| Eye contact                    | The eyes may water profusely. There may be irritation and redness. There may be severe pain.   |
| Ingestion                      | Convulsions may occur. There may be loss of consciousness. There may be soreness and redness of the mouth and throat. There may be vomiting.   |
| Inhalation                     | Absorption through the lungs can occur causing symptoms similar to those of ingestion. Convulsions may occur. Exposure may cause coughing or wheezing. There may be irritation of the throat with a feeling of tightness in the chest. There may be loss of consciousness. There may be shortness of breath with a burning sensation in the throat. There may be vomiting. |
| Delayed / immediate<br>effects | Convulsions may occur. Immediate effects can be expected after short-term exposure. There may be loss of consciousness.  |

#### 4.3 Indication of any immediate medical attention and special treatment needed

#### Immediate / special treatment

Do not induce vomiting. Immediate medical attention is required. Show this safety data sheet to the doctor in attendance. Eye bathing equipment should be available on the premises.

4.2

GP1219 v2.0

# Glentham

# Safety Data Sheet

www.glentham.com

#### 5. Fire-fighting measures

## 5.1 Extinguishing media

Suitable extinguishing media for the surrounding fire should be used. Use water spray to cool containers.

#### Special hazards arising from the substance or mixture

Exposure hazards

5.2

In combustion emits toxic fumes. Toxic.

## 5.3 Advice for fire-fighters

Wear protective clothing to prevent contact with skin and eyes. Wear self-contained breathing apparatus.

#### 6. Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

#### Personal precautions

Do not attempt to take action without suitable protective clothing - see section 8 of SDS. Do not create dust. If outside do not approach from downwind. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Notify the police and fire brigade immediately. Refer to section 8 of SDS for personal protection details.

#### 6.2 Environmental precautions

Do not discharge into drains or rivers.

#### 6.3 Methods and material for containment and cleaning up

#### Clean-up procedures

Clean-up should be dealt with only by qualified personnel familiar with the specific substance. Transfer to a closable, labelled salvage container for disposal by an appropriate method. Absorb into dry earth or sand.

#### 6.4 Reference to other sections

Refer to section 8 of SDS.

#### 7. Handling and storage

## 7.1 Precautions for safe handling

#### Handling requirements

Avoid direct contact with the substance. Avoid the formation or spread of dust in the air. Do not handle in a confined space. Ensure there is exhaust ventilation of the area. Ensure there is sufficient ventilation of the area.

#### 7.2 Conditions for safe storage, including any incompatibilities

#### Storage conditions

Avoid contact with water or humidity. Keep container tightly closed. Store in cool, well ventilated area.

#### 7.3 Specific end use(s)

No data available.

#### 8. Exposure controls/personal protection

### 8.1 Control parameters

Workplace exposure limits

No workplace exposure limit control parameters set

#### 8.2 Exposure controls

| Engineering measures   | Ensure there is exhaust ventilation of the area. Ensure there is sufficient ventilation of the area.  |
|------------------------|---|
| Respiratory protection | Particle filter class P1 (EN143). Respiratory protective device with particle filter. Self- contained breathing apparatus must be available in case of emergency. |
| Hand protection        | Impermeable gloves. Protective gloves.  |
| Eye protection         | Ensure eye bath is to hand. Safety glasses with side-shields. Safety glasses.   |
