

## Product Datasheet

### GS6963 - 2-Methyltetrahydrofuran, GlenDry™, anhydrous

#### Product Details

|                    |                                                 |
|--------------------|-------------------------------------------------|
| Product Name       | 2-Methyltetrahydrofuran,<br>GlenDry™, anhydrous |
| Glentham Code      | GS6963                                          |
| CAS Number         | 96-47-9                                         |
| EINECS             | 202-507-4                                       |
| Related Categories | Solvents                                        |

#### Structure

|                   |                                    |
|-------------------|------------------------------------|
| Molecular Weight  | : 86.13                            |
| Molecular Formula | : C <sub>5</sub> H <sub>10</sub> O |

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

|                     |                                                        |
|---------------------|--------------------------------------------------------|
| CLP Classification  | Skin Irr. 2, Acute Tox. 4,<br>Eye Dam. 1, Flam. Liq. 2 |
| Signal Word         | Danger                                                 |
| Hazard Codes        | H315, H302, H318, H225                                 |
| Precautionary Codes | P305+P351+P338, P280,<br>P210, P301+P312               |
| EUH Codes           | EUH019                                                 |

#### Pictograms

UN Number, Class, PG  
(RID)

UN2536 - 3 - PG II

#### Glentham Product Specification

|                        |                            |
|------------------------|----------------------------|
| Physical Description   | : Clear, colourless liquid |
| Water                  | : ≤ 0.0025%                |
| Residue on Evaporation | : ≤ 0.0001%                |
| Assay                  | : ≥ 99.8%                  |
| Version                | : v1.0                     |
