GS8853 v3.0

Glentham

Safety Data Sheet

www.glentham.com

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions

Do not attempt to take action without suitable protective clothing - see section 8 of SDS. Do not create dust. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Notify the police and fire brigade immediately.

6.2 Environmental precautions

Do not discharge into drains or rivers.

6.3 Methods and material for containment and cleaning up

Clean-up procedures

Clean-up should be dealt with only by qualified personnel familiar with the specific substance. Transfer to a closable, labelled salvage container for disposal by an appropriate method.

6.4 Reference to other sections

Refer to section 8 of SDS.

7. Handling and storage

7.1 Precautions for safe handling

Handling requirements

Avoid direct contact with the substance. Avoid the formation or spread of dust in the air. Do not handle in a confined space. Ensure there is sufficient ventilation of the area.

7.2 Conditions for safe storage, including any incompatibilities

Storage conditions

Avoid contact with water or humidity. Keep container tightly closed. Store in cool, well ventilated area.

7.3 Specific end use(s)

No data available.

8. Exposure controls/personal protection

Control parameters

Workplace exposure limits

No workplace exposure limit control parameters set

8.2 Exposure controls

8.1

| ···· | | |
|------------------------|---|--|
| Engineering measures | Ensure there is sufficient ventilation of the area. | |
| Respiratory protection | Respiratory protective device with particle filter. Self- contained breathing apparatus must be available in case of emergency. | |
| Hand protection | Protective gloves. | |
| Eye protection | Tightly fitting safety goggles. Ensure eye bath is to hand. | |
| Skin protection | Protective clothing. | |

9. Physical and chemical properties

9.1 Information on basic physical and chemical properties

| Liquid |
|--------------------|
| Colourless |
| No data available. |

| Density/relative density |
| Relative vapour pressure |
| Particle characteristics |
| |

9.2 Other information

No data available.

10. Stability and reactivity

10.1 Reactivity

Stable under recommended transport or storage conditions.

^{10.2} Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

Hazardous reactions

Decomposition may occur on exposure to conditions or materials listed below. Hazardous reactions will not occur under normal transport or storage conditions.

No data available. No data available. No data available. No data available.

No data available. No data available.

0.900

^{10.4} Conditions to avoid

Heat.

^{10.5} Incompatible materials

Materials to avoid

Strong acids. Strong oxidising agents.

11. Toxicological information

^{11.1} Information on toxicological effects

a) Acute toxicity

No data available.

b) Skin corrosion/irritation Skin corrosion/irritation (Category 1B)

- c) Serious eye damage/irritation No data available.
- d) Respiratory or skin sensitisation No data available.
- e) Germ cell mutagenicity No data available.
- f) Carcinogenicity
 No data available.
- g) Reproductive toxicity No data available.
- b) STOT-single exposure
 Specific target organ toxicity, single exposure; Respiratory tract irritation (Category 3)
- i) STOT-repeated exposure No data available.
- j) Aspiration hazard No data available.
