

## Safety Data Sheet

www.glentham.com

#### According to REACH Regulations (EC) 1907/2006 and (EU) 2020/878

#### Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

1.

| Product code  | : GT5099  |
|---------------|---|
| Product name  | : o-Dianisidine dihydrochloride   |
| CAS number    | : 20325-40-0  |
| EINECS        | : 243-737-5   |
| Physical form | : solid, substance  |
| REACH         | A registration number is not available for this substance as the substance or its uses<br>are exempted from registration, the annual tonnage does not require a registration or<br>the registration is envisaged for a later registration deadline. |

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

PC21: Laboratory chemicals.

#### 1.3 Details of the supplier of the safety data sheet

| Company name | : | Glentham Life Sciences Ltd | Telephone | : | +44 (0) 1225 667 798 |
|--------------|---|----------------------------|-----------|---|----------------------|
|              |   | Unit 5 Leafield Way        | Fax       | : | +44 (0) 2033 978 909 |
|              |   | Corsham SN13 9SW           | Email     | : | info@glentham.com    |
|              |   | United Kingdom             | Web       | : | www.glentham.com     |
|              |   |                            |           |   |                      |

#### 1.4 Emergency telephone number

Emergency telephone : NHS Direct 111 (UK, 24 hours), 112 (EU, 24 Hours), +44 (0) 1225 667 798 (09.00 – 17.00 GMT) number

#### 2. Hazards identification

#### 2.1 Classification of the substance or mixture

Classification under CLP according to (EC) 1272/2008

| H302 | Acute Tox. 4 |
|------|--------------|
| H350 | Carc. 1B     |

#### 2.2 Label elements

Label elements under CLP according to (EC) 1272/2008

#### Pictograms

| Signal words             | Danger   |
|--------------------------|--|
| Hazard statements        |  |
| H302                     | Harmful if swallowed                                   |
| H350                     | May cause cancer                                       |
| Precautionary statements |  |
| P201                     | Obtain special instructions before use.                |
| P308+P313                | IF exposed or concerned: Get medical advice/attention. |
| P264                     | Do not breathe fume.                                   |
| Other hazards            |  |

#### РВТ

2.3

This substance is not identified as a PBT substance.

#### 3.0 Composition/information on ingredients

#### 3.1 Substances

In combustion emits toxic fumes. Toxic.

#### 5.3 Advice for fire-fighters

Wear protective clothing to prevent contact with skin and eyes. Wear self-contained breathing apparatus.

#### 6. Accidental release measures

# Glentham

## Safety Data Sheet

www.glentham.com

#### 6.1 Personal precautions, protective equipment and emergency procedures

#### Personal precautions

Do not attempt to take action without suitable protective clothing - see section 8 of SDS. Do not create dust. Evacuate the area immediately. If outside do not approach from downwind. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Notify the police and fire brigade immediately. Refer to section 8 of SDS for personal protection details.

#### 6.2 Environmental precautions

Alert the neighbourhood to the presence of fumes or gas. Do not discharge into drains or rivers.

#### 6.3 Methods and material for containment and cleaning up

#### Clean-up procedures

Clean-up should be dealt with only by qualified personnel familiar with the specific substance. Transfer to a closable, labelled salvage container for disposal by an appropriate method. Absorb into dry earth or sand.

#### 6.4 Reference to other sections

Refer to section 8 of SDS.

#### 7. Handling and storage

#### 7.1 Precautions for safe handling

Handling requirements

Avoid direct contact with the substance. Avoid the formation or spread of dust in the air. Ensure there is exhaust ventilation of the area. Ensure there is sufficient ventilation of the area.

#### 7.2 Conditions for safe storage, including any incompatibilities

#### Storage conditions

Avoid contact with water or humidity. Keep container tightly closed. Store in cool, well ventilated area.

#### 7.3 Specific end use(s)

No data available.

#### 8. Exposure controls/personal protection

#### 8.1 Control parameters

Workplace exposure limits

No workplace exposure limit control parameters set

#### 8.2 Exposure controls

| Engineering measures   | Ensure there is exhaust ventilation of the area. Ensure there is sufficient ventilation of the area.  |
|------------------------|---|
| Respiratory protection | Particle filter class P1 (EN143). Respiratory protective device with particle filter. Self- contained breathing apparatus must be available in case of emergency. |
| Hand protection        | Impermeable gloves. Protective gloves.  |
| Eye protection         | Ensure eye bath is to hand. Safety glasses with side-shields. Safety glasses.   |
| Skin protection        | Protective clothing.  |

#### 9. Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

| Solid              |
|--------------------|
| White              |
| No data available. |
|                    |
