

## Product Datasheet

### GT6818 - Tetrazolium Violet

#### Product Details

|                    |                    |
|--------------------|--------------------|
| Product Name       | Tetrazolium Violet |
| Glentham Code      | GT6818             |
| CAS Number         | 1719-71-7          |
| EINECS             | 217-008-7          |
| MDL Number         | MFCD00011875       |
| PubChem SID        | 310280833          |
| Related Categories | Dyes & Stains      |

|                             |                                          |
|-----------------------------|------------------------------------------|
| Identification (IR)         | : To conform to structure                |
| Solubility (5% in methanol) | : Clear, yellow or yellow-green solution |
| Assay (Titration)           | : $\geq 98.0\%$                          |
| Version                     | : v1.0                                   |

#### About Tetrazolium Violet

No further details on record.

#### Structure

Molecular Weight : 384.87  
Molecular Formula :  $C_{23}H_{17}ClN_4$

Cl<sup>-</sup>

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as hazardous under CLP.  
Not classified as dangerous for transport.

#### Glentham Product Specification

Physical Description : Off-white, beige or pale brown powder
