

## Product Specification

|               |                                |
|---------------|--------------------------------|
| Product Name  | 4-(4-Nitrophenylazo)resorcinol |
| Glentham Code | GT9017                         |
| CAS Number    | 74-39-5                        |
| EINECS        | 200-808-5                      |
| MDL Number    | MFCD00007310                   |
| PubChem SID   | 310277940                      |

|                   |                                                              |
|-------------------|--------------------------------------------------------------|
| Molecular Weight  | 259.22                                                       |
| Molecular Formula | C <sub>12</sub> H <sub>9</sub> N <sub>3</sub> O <sub>4</sub> |
| Storage Temp.     | +20°C                                                        |

| Property                                             | Specification                               |
|------------------------------------------------------|---------------------------------------------|
| Physical Description                                 | Orange to red or dark red-brown powder      |
| Wavelength of Maximum Absorption (λ <sub>max</sub> ) | 439.0 - 445.0 nm (5mg/L, methanol)          |
| Absorbance                                           | ≥ 0.60 (5mg/L, methanol, λ <sub>max</sub> ) |

|                       |              |
|-----------------------|--------------|
| Specification Version | - v1.0       |
| Date Created          | - 2019-04-23 |

Glentham Life Sciences confirm that the above referenced product conformed to the information displayed in this document on the quality release date. Please check [www.glentham.com](http://www.glentham.com) or contact us using the details above for the current version of this document.
