GT9699 v3.0

## Safety Data Sheet

www.glentham.com

### According to REACH Regulations (EC) 1907/2006 and (EU) 2020/878

### 1.1 Product identifier

1.

| Product code  | : | GT9699                                 |
|---------------|---|--|
| Product name  | : | Thymol                                 |
| CAS number    | : | 89-83-8                                |
| EINECS        | : | 201-944-8                              |
| Physical form | : | solid, substance                       |
| REACH         | : | A registration nui<br>are exempted fro |
|               |   |  |

solid, substance A registration number is not available for this substance as the substance or its uses are exempted from registration, the annual tonnage does not require a registration or the registration is envisaged for a later registration deadline.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

PC21: Laboratory chemicals.

### 1.3 Details of the supplier of the safety data sheet

| Company name | : | Glentham Life Sciences Ltd | Telephone | : | +44 (0) 1225 667 798 |
|--------------|---|----------------------------|-----------|---|----------------------|
|              |   | Unit 5 Leafield Way        | Fax       | : | +44 (0) 2033 978 909 |
|              |   | Corsham SN13 9SW           | Email     | : | info@glentham.com    |
|              |   | United Kingdom             | Web       | : | www.glentham.com     |
|              |   |                            |           |   |                      |

### 1.4 Emergency telephone number

Emergency telephone : NHS Direct 111 (UK, 24 hours), 112 (EU, 24 Hours), +44 (0) 1225 667 798 (09.00 – 17.00 GMT) number

### 2. Hazards identification

### 2.1 Classification of the substance or mixture

Classification under CLP according to (EC) 1272/2008

| H302 | Acute Tox. 4      |
|------|-------------------|
| H314 | Skin Corr. 1B     |
| H411 | Aquatic Chronic 2 |

### 2.2 Label elements

Label elements under CLP according to (EC) 1272/2008

### Pictograms

| Signal words             | Danger  |
|--------------------------|---|
| Hazard statements        |   |
| H302                     | Harmful if swallowed  |
| H314                     | Causes severe skin burns and eye damage   |
| H411                     | Toxic to aquatic life with long lasting effects   |
| Precautionary statements |   |
| P273                     | Avoid release to the environment.   |
| P280                     | Wear protective gloves/protective clothing/eye protection/face protection.  |
| P303+P361+P353           | IF ON SKIN (or hair): Take off Immediately all contaminated clothing. Rinse SKIN with water [or shower].                            |
| P305+P351+P338           | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and<br>easy to do - continue rinsing. |
| P310                     | Immediately call a POISON CENTER or doctor/physician.   |
| P264                     | Do not breathe fume.  |
| P260                     | Do not breathe dust.  |
| Other hazards            |   |

### PBT

This substance is not identified as a PBT substance.

### Composition/information on ingredients 3.0

### 3.1 Substances

| Name   | Identifier  | %     | Classification   |
|--------|---|-------|--|
| Thymol | CAS: 89-83-8<br>EC: 201-944-8<br>REACH: Not<br>applicable | 99.0% | H302, Acute Tox. 4<br>H314, Skin Corr. 1B<br>H411, Aquatic Chronic 2 |

### 4. First aid measures

#### 4.1 Description of first aid measures

| Skin contact     | Consult a doctor. Drench the affected skin with running water for 10 minutes or longer if substance is still on skin. Remove all contaminated clothes and footwear immediately unless stuck to skin. Transfer to hospital if there are burns or symptoms of poisoning.   |
|------------------|--|
| Eye contact      | Consult a doctor. Transfer to hospital for specialist examination. Bathe the eye with running water for 15 minutes.  |
| Ingestion        | Consult a doctor. Do not induce vomiting. Give 1 cup of water to drink every 10 minutes. If conscious give half a litre of water to drink immediately. If unconscious and breathing is OK, place in the recovery position. If unconscious, check for breathing and apply artificial respiration if necessary. Transfer to hospital as soon as possible. Wash out mouth with water.   |
| Inhalation       | If breathing becomes bubbly, have the casualty sit and provide oxygen if available. If conscious, ensure the casualty sits or lies down. If unconscious and breathing is OK, place in the recovery position. If unconscious, check for breathing and apply artificial respiration if necessary. Transfer to hospital as soon as possible. Consult a doctor. Remove casualty from exposure ensuring one's own safety whilst doing so. |
| Most important s | ymptoms and effects, both acute and delayed  |
| Skin contact     | Blistering may occur. Progressive ulceration will occur if treatment is not immediate. There may be  |

### 4.2

| Skin contact                   | Blistering may occur. Progressive ulceration will occur if treatment is not immediate. There may be irritation and redness at the site of contact.  |
|--------------------------------|---|
| Eye contact                    | Corneal burns may occur. May cause permanent damage. The eyes may water profusely. There may be irritation and redness.   |
| Ingestion                      | Blood may be vomited. Corrosive burns may appear around the lips. Nausea and stomach pain may occur. There may be bleeding from the mouth or nose. There may be soreness and redness of the mouth and throat. There may be vomiting.                        |
| Inhalation                     | Exposure may cause coughing or wheezing. Nausea and stomach pain may occur. There may be irritation of the throat with a feeling of tightness in the chest. There may be shortness of breath with a burning sensation in the throat. There may be vomiting. |
| Delayed / immediate<br>effects | Immediate effects can be expected after short-term exposure. Nausea and stomach pain may occur.<br>There may be bleeding from the mouth or nose.  |

### 4.3 Indication of any immediate medical attention and special treatment needed

### Immediate / special treatment

Do not induce vomiting. Eye bathing equipment should be available on the premises.

### 5. Fire-fighting measures

#### 5.1 Extinguishing media

Suitable extinguishing media for the surrounding fire should be used. Use water spray to cool containers.

### 5.2 Special hazards arising from the substance or mixture

### Exposure hazards

Corrosive. In combustion emits toxic fumes.

### 5.3 Advice for fire-fighters

# Safety Data Sheet

www.glentham.com

Wear protective clothing to prevent contact with skin and eyes. Wear self-contained breathing apparatus.

### 6. Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

### Personal precautions

Do not attempt to take action without suitable protective clothing - see section 8 of SDS. If outside do not approach from downwind. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Notify the police and fire brigade immediately. Refer to section 8 of SDS for personal protection details.

### 6.2 Environmental precautions

Do not discharge into drains or rivers.

### 6.3 Methods and material for containment and cleaning up

### Clean-up procedures

Clean-up should be dealt with only by qualified personnel familiar with the specific substance. Transfer to a closable, labelled salvage container for disposal by an appropriate method.

### 6.4 Reference to other sections

Refer to section 8 of SDS.

### 7. Handling and storage

### 7.1 Precautions for safe handling

### Handling requirements

Avoid direct contact with the substance. Avoid the formation or spread of dust in the air. Do not handle in a confined space. Ensure there is sufficient ventilation of the area.

### 7.2 Conditions for safe storage, including any incompatibilities

### Storage conditions

Avoid contact with water or humidity. Keep container tightly closed. The floor of the storage room must be impermeable to prevent the escape of liquids. Store in cool, well ventilated area.

### 7.3 Specific end use(s)

No data available.

### 8. Exposure controls/personal protection

### Control parameters

8.1

### Workplace exposure limits

No workplace exposure limit control parameters set

### 8.2 Exposure controls

| Engineering measures   | The floor of the storage room must be impermeable to prevent the escape of liquids. Ensure there is sufficient ventilation of the area. |
|------------------------|---|
| Respiratory protection | Respiratory protective device with particle filter. Self- contained breathing apparatus must be available in case of emergency.         |
| Hand protection        | Protective gloves.  |
| Eye protection         | Tightly fitting safety goggles. Ensure eye bath is to hand. Safety glasses.   |
| Skin protection        | Protective clothing.  |
| Environmental          | The floor of the storage room must be impermeable to prevent the escape of liquids.   |

### 9. Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

| Physical state | Solid              |
|----------------|--------------------|
| Colour         | White              |
| Odour          | No data available. |

233 °C No data available. 900 - 980 mg/L @ 20 °C No data available. No data available. 0.970 No data available. No data available.

### 9.2 Other information

No data available.

### 10. Stability and reactivity

### 10.1 Reactivity

Stable under recommended transport or storage conditions.

## 10.2 Chemical stability

Stable under normal conditions.

### <sup>10.3</sup> Possibility of hazardous reactions

### Hazardous reactions

Decomposition may occur on exposure to conditions or materials listed below. Hazardous reactions will not occur under normal transport or storage conditions.

### <sup>10.4</sup> Conditions to avoid

Heat.

### <sup>10.5</sup> Incompatible materials

Materials to avoid

Strong acids. Strong oxidising agents.

### 11. Toxicological information

### 11.1 Information on toxicological effects

- a) Acute toxicity No data available.
- b) Skin corrosion/irritation
  Skin corrosion/irritation (Category 1B)
- c) Serious eye damage/irritation No data available.
- d) Respiratory or skin sensitisation No data available.
- e) Germ cell mutagenicity No data available.
- f) Carcinogenicity No data available.
- g) Reproductive toxicity No data available.
- h) STOT-single exposure No data available.
- i) STOT-repeated exposure

| Other information              | N   |  |

Other information No data available.

### 11.2 Information on other hazards

11.2.1 Endocrine disrupting properties

This product does not contain known or suspected endocrine disruptors according to REACH or relevant EU Regulations.

11.2.2 Other information

No additional information

### 12. Ecological information

12.1 Toxicity

No data available.

12.2 Persistence and degradability Biodegradable.

5

## 12.3 Bioaccumulative potential

No bioaccumulation potential.

## 12.4 Mobility in soil

Readily absorbed into soil.

### 12.5 Results of PBT and vPvB assessment

This substance is not identified as a PBT substance.

## 12.6 Endocrine disrupting properties

This substance is not identified as having endocrine disrupting properties

### 12.7 Other adverse effects

No data available.

### 13. Disposal considerations

### 13.1 Waste treatment methods

### **Disposal operations**

Transfer to a suitable container and arrange for collection by specialised disposal company.

NB

The user's attention is drawn to the possible existence of regional or national regulations regarding disposal.
