Glentham

Safety Data Sheet

www.glentham.com

Ingestion

Wash out mouth with water. Do not induce vomiting. If conscious, give half a litre of water to drink immediately. If unconscious and breathing is OK, place in the recovery position. Transfer to hospital as soon as possible.

Inhalation

Remove casualty from exposure ensuring one's own safety whilst doing so. If conscious, ensure the casualty sits or lies down. If unconscious and breathing is OK, place in the recovery position. If unconscious, check for breathing and apply artificial respiration if necessary. If breathing becomes bubbly, have the casualty sit and provide oxygen if available. Transfer to hospital as soon as possible.

4.2 Most important symptoms and effects, both acute and delayed

Skin contac

There may be redness or whiteness of the skin in the area of exposure. Irritation or pain may occur at the site of contact. Absorption through the skin may be fatal.

Eye contact

There may be severe pain. The eyes may water profusely.

Ingestion

There may be soreness and redness of the mouth and throat. There may be vomiting. Convulsions may occur. There may be loss of consciousness.

Inhalation

4.3

There may be shortness of breath with a burning sensation in the throat. There may be loss of consciousness. Convulsions may occur. Absorption through the lungs can occur causing symptoms similar to those of ingestion.

Delayed / immediate effects

Immediate effects can be expected after short-term exposure.

Indication of any immediate medical attention and special treatment needed

Immediate / special treatment

Show this safety data sheet to the doctor in attendance. Immediate medical attention is required.

.....

5.0 Fire-fighting measures

5.1 Extinguishing media

Use water spray to cool containers. Suitable extinguishing media for the surrounding fire should be used.

5.2 Special hazards arising from the substance or mixture

Exposure hazards

Toxic. In combustion emits toxic fumes.

5.3 Advice for fire-fighters

Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes.

.....

6.0 Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions

Notify the police and fire brigade immediately. If outside do not approach from downwind. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Do not attempt to take action without suitable protective clothing - see section 8 of SDS.

6.2 Environmental precautions

Do not discharge into drains or rivers.

6.3 Methods and material for containment and cleaning up

Clean-up procedures

Absorb into dry earth or sand. Transfer to a closable, labelled salvage container for disposal by an appropriate method. Clean-up should be dealt with only by qualified personnel familiar with the specific substance.

6.3 Reference to other sections

Refer to section 8 of SDS.

.....

7.0 Handling and storage

7.1 Precautions for safe handling

Handling requirements

Ensure there is exhaust ventilation of the area. Avoid the formation or spread of dust in the air. Avoid direct contact with the substance.

7.2 Conditions for safe storage, including any incompatibilities

Storage conditions

Safety Data Sheet

www.glentham.com

| | Store in cool, well ventilated area. Keep container tightly closed. Avoid contact with water or humidity. | | | | |
|------|---|--|--|--|--|
| 7.3 | Store in cool, weil ventilated area. Reep container lightly closed. Avoid contact with water of humidity. Specific end use(s) | | | | |
| 7.5 | No data available. | | | | |
| | NU Udla available. | | | | |
| 8.0 | Exposure controls/personal protection | | | | |
| | | | | | |
| 8.1 | Control parameters Workplace exposure limits | | | | |
| | | | | | |
| 8.2 | Exposure controls | | | | |
| | Engineering measures | | | | |
| | Ensure there is exhaust ventilation of the area. | | | | |
| | Respiratory protection | | | | |
| | Respiratory protective device with particle filter. Particle filter class P1 (EN143). Self- contained breathing apparatus must be available in case of emergency. | | | | |
| | Hand protection | | | | |
| | Impermeable gloves. | | | | |
| | Eye protection | | | | |
| | Safety glasses with side-shields. Ensure eye bath is to hand. | | | | |
| | Skin protection | | | | |
| | Protective clothing. | | | | |
| | | | | | |
| 9.0 | Physical and chemical properties | | | | |
| 9.1 | Information on basic physical and chemical properties | | | | |
| | Physical Form: | | | | |
| | Colour: | | | | |
| 9.2 | Other information | | | | |
| | Not applicable. | | | | |
| | | | | | |
| 10.0 | Stability and reactivity | | | | |
| 10.1 | Reactivity | | | | |
| 10.2 | Chemical stability | | | | |
| 10.2 | Stable under normal conditions. | | | | |
| 10.3 | Possibility of hazardous reactions | | | | |
| 10.5 | Hazardous reactions | | | | |
| | Hazardous reactions will not occur under normal transport or storage conditions. Decomposition may occur on exposure to conditions | | | | |
| | or materials listed below. | | | | |
| 10.4 | Conditions to avoid | | | | |
| | Heat. | | | | |
| 10.5 | Incompatible materials | | | | |
| | Materials to avoid | | | | |
| | Strong acids. Strong oxidising agents. | | | | |
| | | | | | |
