

## Product Datasheet

### GX1812 - 2,4-Dimethylimidazole

#### Product Details

|                |                       |
|----------------|-----------------------|
| Product Name   | 2,4-Dimethylimidazole |
| Glenthams Code | GX1812                |
| CAS Number     | 930-62-1              |
| EINECS         | 213-221-4             |

#### Structure

|                   |                                                |
|-------------------|------------------------------------------------|
| Molecular Weight  | : 96.13                                        |
| Molecular Formula | : C <sub>5</sub> H <sub>8</sub> N <sub>2</sub> |

#### Glenthams Product Specification

|                      |                                   |
|----------------------|-----------------------------------|
| Physical Description | : Light yellow to yellow crystals |
| Assay                | : ≥ 95.0%                         |
| Version              | : v1.0                            |

#### About 2,4-Dimethylimidazole

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

|                     |                                                            |
|---------------------|------------------------------------------------------------|
| CLP Classification  | Skin Corr. 1B                                              |
| Signal Word         | Danger                                                     |
| Hazard Codes        | H314                                                       |
| Precautionary Codes | P301+P330+P331,<br>P305+P351+P338, P260,<br>P303+P361+P353 |

Pictograms

|                            |                     |
|----------------------------|---------------------|
| UN Number, Class, PG (RID) | UN3263 - 8 - PG III |
