

## Product Datasheet

### GX3304 - Bismuth bromide, 99%

#### Product Details

|                    |                         |
|--------------------|-------------------------|
| Product Name       | Bismuth bromide, 99%    |
| Glenthams Code     | GX3304                  |
| CAS Number         | 7787-58-8               |
| Related Categories | Inorganics, Metal Salts |

#### Structure

|                   |                     |
|-------------------|---------------------|
| Molecular Weight  | : 448.71            |
| Molecular Formula | : BiBr <sub>3</sub> |

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

|                     |                                                                                         |
|---------------------|-----------------------------------------------------------------------------------------|
| CLP Classification  | Skin Corr. 1B                                                                           |
| Signal Word         | Danger                                                                                  |
| Hazard Codes        | H314                                                                                    |
| Precautionary Codes | P260, P280,<br>P301+P330+P331,<br>P304+P340, P363,<br>P305+P351+P338,<br>P303+P361+P353 |

#### Pictograms

UN Number, Class, PG (RID) UN3260 - 8 - PG II

#### Glenthams Product Specification

|                             |                                       |
|-----------------------------|---------------------------------------|
| Physical Description        | : Light-yellow to yellow-green powder |
| Purity (Trace Metals Basis) | : ≥ 99.0%                             |
| Version                     | : v1.0                                |

#### About Bismuth bromide, 99%
