

## Product Datasheet

### GX4355 - Calcium sulfate, 99.99%

#### Product Details

|                    |                         |
|--------------------|-------------------------|
| Product Name       | Calcium sulfate, 99.99% |
| Glenthams Code     | GX4355                  |
| CAS Number         | 7778-18-9               |
| EINECS             | 231-900-3               |
| MDL Number         | MFCD00010912            |
| PubChem SID        | 310269231               |
| Related Categories | Inorganics, Metal Salts |

|                           |  |
|---------------------------|--|
| Total Metallic Impurities | : ≤ 200ppm                                 |
| Calcium (Ca)              | : 28.5 - 30.5 % (complexometric titration) |
| Purity                    | : ≥ 99.99%                                 |
| Version                   | : v1.0                                     |

#### About Calcium sulfate, 99.99%

No further details on record.

#### Structure

Molecular Weight : 136.14  
Molecular Formula :  $\text{CaO}_4\text{S}$

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as hazardous under CLP.  
Not classified as dangerous for transport.

#### Glenthams Product Specification

Physical Description : White to off-white powder
