

## Product Datasheet

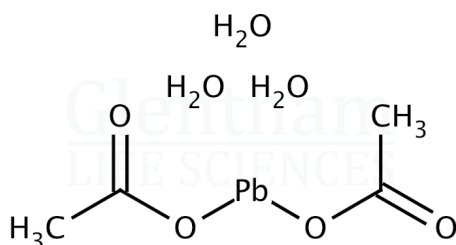

### GX5771 - Lead(II) acetate hydrate, 99.999%

#### Product Details

|                |                                      |
|----------------|--------------------------------------|
| Product Name   | Lead(II) acetate hydrate,<br>99.999% |
| Glenthams Code | GX5771                               |
| CAS Number     | 6080-56-4                            |

#### Structure

|                   |                             |
|-------------------|-----------------------------|
| Molecular Weight  | : 325.28                    |
| Molecular Formula | : $C_4H_6O_4Pb \cdot 3H_2O$ |

#### Pictograms

UN Number, Class, PG  
(RID)

UN1616 - 6.1 - PG III

#### Glenthams Product Specification

|                      |                                            |
|----------------------|--------------------------------------------|
| Physical Description | : White to almost white crystalline powder |
| Assay                | : $\geq 99.999\%$                          |
| Version              | : v1.0                                     |

#### About Lead(II) acetate hydrate, 99.999%

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

|                     |                                                                     |
|---------------------|---------------------------------------------------------------------|
| CLP Classification  | Aquatic Chronic 1, Repr. 1A, Eye Dam. 1, STOT RE 2, Aquatic Acute 1 |
| Signal Word         | Danger                                                              |
| Hazard Codes        | H410, H360, H318, H373, H400                                        |
| Precautionary Codes | P273, P280, P305+P351+P338, P308+P313                               |
