

## Product Datasheet

### GX5877 - Nickel(II) oxide, green, 99%

Pictograms

#### Product Details

|                    |                              |
|--------------------|------------------------------|
| Product Name       | Nickel(II) oxide, green, 99% |
| Glenthams Code     | GX5877                       |
| CAS Number         | 1313-99-1                    |
| Related Categories | Inorganics, Metal Salts      |

#### Glenthams Product Specification

|                             |                                              |
|-----------------------------|----------------------------------------------|
| Physical Description        | : Light green to dark green powder or chunks |
| Nickel (Ni)                 | : $\geq 77.8\%$                              |
| Purity (Trace Metals Basis) | : $\geq 99.0\%$                              |
| Version                     | : v1.0                                       |

#### Structure

|                   |         |
|-------------------|---------|
| Molecular Weight  | : 74.71 |
| Molecular Formula | : NiO   |

#### About Nickel(II) oxide, green, 99%

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as dangerous for transport.

|                     |                                                                                             |
|---------------------|---------------------------------------------------------------------------------------------|
| CLP Classification  | Aquatic Chronic 2, Carc. 1A, Repr. 1B, Skin Sens. 1, Acute Tox. 4, Resp. Sens. 1, STOT RE 1 |
| Signal Word         | Danger                                                                                      |
| Hazard Codes        | H411, H350i, H360, H317, H332, H334, H372                                                   |
| Precautionary Codes | P273, P280, P261, P302+P352, P264, P270, P308+P313                                          |
