

## Product Datasheet

### GX6453 - Vanadyl acetylacetonate

#### Product Details

|                    |                                       |
|--------------------|---------------------------------------|
| Product Name       | Vanadyl acetylacetonate               |
| Glenthams Code     | GX6453                                |
| CAS Number         | 3153-26-2                             |
| EINECS             | 221-590-8                             |
| MDL Number         | MFCD00000032                          |
| Related Categories | Organics, Ketones,<br>Organometallics |

#### Structure

|                   |                                                    |
|-------------------|----------------------------------------------------|
| Molecular Weight  | : 265.16                                           |
| Molecular Formula | : C <sub>10</sub> H <sub>14</sub> O <sub>5</sub> V |

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as dangerous for transport.

CLP Classification Skin Irr. 2, Eye Irr. 2A,  
STOT SE 3, STOT SE 3,  
Acute Tox. 4

Signal Word Warning

Hazard Codes H315, H319, H335, H336,  
H302

#### Precautionary Codes

P280, P261,  
P305+P351+P338,  
P301+P312

#### Pictograms

#### Glenthams Product Specification

|                      |                                                |
|----------------------|------------------------------------------------|
| Physical Description | : Blue to green crystalline powder or crystals |
| Assay                | : ≥ 98.0%                                      |
| Version              | : v1.0                                         |

#### About Vanadyl acetylacetonate
