

Product Specification

|                   |                                     |
|-------------------|-------------------------------------|
| Product Name      | Neodymium Wire 1 mm diameter, 99.9% |
| Glenthams Code    | GX6967                              |
| CAS Number        | 7440-00-8                           |
| Molecular Weight  |                                     |
| Molecular Formula |                                     |
| Storage Temp.     | +20°C                               |
