

## Product Datasheet

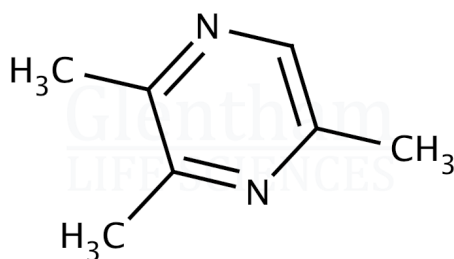

### GX8421 - 2,3,5-Trimethylpyrazine

#### Product Details

|                |                         |
|----------------|-------------------------|
| Product Name   | 2,3,5-Trimethylpyrazine |
| Glenthams Code | GX8421                  |
| CAS Number     | 14667-55-1              |
| EINECS         | 238-712-0               |
| MDL Number     | MFCD00006145            |

#### Structure

|                   |                                                 |
|-------------------|-------------------------------------------------|
| Molecular Weight  | : 122.17                                        |
| Molecular Formula | : C <sub>7</sub> H <sub>10</sub> N <sub>2</sub> |

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

|                     |                                                                                  |
|---------------------|----------------------------------------------------------------------------------|
| CLP Classification  | Skin Irr. 2, Eye Irr. 2A,<br>Flam. Liq. 2, STOT SE 3,<br>STOT SE 3, Acute Tox. 4 |
| Signal Word         | Danger                                                                           |
| Hazard Codes        | H315, H319, H225, H335,<br>H336, H302                                            |
| Precautionary Codes | P280, P210,<br>P305+P351+P338, P261,<br>P301+P312                                |

#### Pictograms

UN Number, Class, PG  
(RID)

UN1993 - 3 - PG III

#### Glenthams Product Specification

|                      |                                     |
|----------------------|-------------------------------------|
| Physical Description | : Colourless to light-yellow liquid |
| Water                | : ≤ 0.5%                            |
| Assay                | : ≥ 99.0%                           |
| Version              | : v1.0                              |
